its companion volume *Birds of Prey of the East* are the most comprehensive and authoritative field guides to North American birds of prey ever published. Written and lavishly illustrated with stunning lifelike paintings by leading field guide illustrator, photographer and author Brian Wheeler, the guides depict an enormous range of variations of age, sex, color and plumage and feature a significant amount of plumage data that has never been published before. The painted figures illustrate plumage and species comparisons in a classic field guide layout. Each species is shown in the same posture and from the same viewpoint, which further assists comparisons. Facing page text includes quick reference identification points and brief natural history accounts that incorporate the latest information. The range maps are exceptionally accurate and much larger than those in other guides. They plot the most up-to-date distribution information for each species and include the location of cities for more accurate reference. Finally, the guides feature color habitat photographs next to the maps. The result sets a new standard for guides to North America's birds of prey. Thirteen years in the making, this is an opus of the highest order with a mass of information and detail unrivalled by any other work presently available.

David Gascoigne, *Travels with Birds*, Wheeler's new field guides are must-haves for every bird of prey aficionado, hawk watcher, raptor biologist or field naturalist. They mark a new frontier in raptor identification books.
