The Politics of Editing Nicholas Spadaccini, Jenaro Taléns, 1992
 Editing is by nature an interpretive practice framed by the editor's circumstances mediating between the author's or text's authority, the contingencies of numerous institutions of literary and cultural production, and a variety of expectations that arise from the specific social and historical conditions of the readers.

The Art of Editing Tim Groenland, 2019-02-21
 The place of the editor in literary production is an ambiguous and often invisible one requiring close attention to publishing history and often inaccessible archival resources to bring it into focus. In *The Art of Editing*, Tim Groenland shows that the critical tendency to overlook the activities of editors and to focus on the solitary author figure neglects important elements of how literary works are acquired, developed, and disseminated. Focusing on selected works of fiction by Raymond Carver and David Foster Wallace, authors who represent stylistic touchstones for US fiction of recent decades, Groenland presents two case studies of editorial collaboration. Carver's early stories were integral to the emergence of the Minimalist movement in the 1980s, while Wallace's novels marked a generational shift towards a more expansive, maximal mode of narrative. The role of their respective editors, however, is often overlooked. Gordon Lish's part in shaping the form of Carver's early stories remains underexplored; analyses of Wallace's fiction meanwhile tend to minimise Michael Pietsch's role from the creation of *Infinite Jest* during the mid-1990s until the present day. Drawing on extensive archival research as well as interviews with editors and collaborators, Groenland illuminates the complex and often conflicting forms of agency involved in the genesis of these influential works. The energies and tensions of the editing process emerge as essential factors in the creation of fictions more commonly understood within the paradigm of solitary authorship. The mediating role of the editor, Groenland argues, is inseparable from the development, form, and reception of these works.

The Editor, 1930

The Adventures of an Illustrator Joseph Pennell, 1925

A Poetics of Editing Susan L. Greenberg, 2018-09-03
 This original and authoritative book offers a first-ever attempt to define a poetics of the editing arts. It proposes a new field of editing studies in which the ideal editor can be understood in relation to the long-theorised author and reader. The book's premise is that editing, like other forms of making, is mostly invisible and can only be brought into full view through a comparative analysis that includes the insights of practitioners. The argument, laid down in careful layers, is supported by a panoramic historical narrative that tracks the shifts in textual authority from religious and secular institutions to the romanticised self of the digital present. The dangers posed by the anti-editing rhetoric of this hybrid romanticism are confronted head-on. To the traditional perception of editing as the imposition of closure, *A Poetics of Editing* adds a perspective on a dynamic process with a sense of the possible.
