Fourth Part Collection of 1000 Java Interview Questions Answers will teach you how to crack Java Interview Learning a new
language is no easy task especially when it s an oop s programming language like Java You might think the problem is your
brain It seems to have a mind of its own a mind that doesn t always want to take in the dry technical stuff you re forced to
study The fact is your brain craves novelty It s constantly searching scanning waiting for something unusual to happen After
all that s the way it was built to help you stay alive It takes all the routine ordinary dull stuff and filters it to the background
so it won t interfere with your brain s real work recording things that matter How does your brain know what matters This
Java Book is very serious java stuff A complete introduction to Java You ll learn everything from the fundamentals to
advanced topics if you ve read this book you know what to expect a visually rich format designed for the way your brain
works To use this book does not require any previous programming experience However if you come from a C C background
then you will be able to advance a bit more rapidly As most readers will know Java is similar in form and spirit to C C Thus
knowledge of those languages helps but is not necessary Even if you have never programmed before you can learn to
