This special issue of *Anti-Trafficking Review* bridges the fields of queer and transgender studies, migration studies, research on sex work, and critiques of the discourse on human trafficking. Along with centring LGBTQI+ subjects as actors within the empirical contexts of domestic and cross-border migration and transactional sex, this collection offers a unique set of perspectives on the operations and production of heteronormativity and juridical power within the spaces of informal economies. Broadly, these papers address the implications of the heightened juridical recognition of sexual orientation and gender identity for debates on migration, sex work, and human trafficking. In so doing, they demonstrate how queer theory can build on and complicate extant critiques of the trafficking framework regarding, e.g., the conflation of trafficking and prostitution, and the reduction of people who sell sexual services to tropes of cisnormative female victimhood and helplessness.

Theoretically, the papers in the issue address a key problematic of binary gender that emerges with the consolidation of the contemporary anti-trafficking framework in the late 1990s, discussed in more detail in the sections that follow. This problematic is built around the ways in which the trafficking framework renders sexuality and gender identity in relation to cross-border migration almost exclusively in terms of violence. Because violence subsumes questions of survival within this dominant frame for sex work and, increasingly, migration, any gender identity or sexual orientation other than cis-male heterosexuality is rendered as vulnerability that cannot act, speak, or transact. The issue addresses this gap by repositioning questions of violence, e.g., in marking the violence of state actors, and by revealing how the discursive elisions constituted by this use of violence are manifested in the everyday lives of people surviving impoverishment around the world. This critique has significant implications for how queer, transgender, and all non-cisnormative people, and non-heteronormative practices, 'appear' as juridical categories in migration, asylum, and refugee processes, along with

**THINKING SEXUALITY TRANSNATIONALLY.** ,2003 **Black Sexualities** Juan Battle,Sandra L. Barnes,2009-11-24 Why does society have difficulty discussing sexualities Where does fear of Black sexualities emerge and how is it manifested How can varied experiences of Black females and males who are lesbian gay bisexual transgender LGBT or straight help inform dialogue and academic inquiry From questioning forces that have constrained sexual choices to examining how Blacks have forged healthy sexual identities in an oppressive environment Black Sexualities acknowledges the diversity of the Black experience and the shared legacy of racism Contributors seek resolution to Blacks understanding of their lives as sexual beings through stories of empowerment healing self awareness victories and other historic and contemporary life course panoramas and provide practical information to foster more culturally relative research tolerance and acceptance **A Global History of Sexual Science, 1880-1960** Veronika Fuechtner,Douglas E. Haynes,Ryan M. Jones,2018 Sex has no history but sexual science does Starting in the late nineteenth century scholars and activists all over the world suddenly began to insist that understandings of sex be based on science As Japanese and Indian sexologists influenced their German British and American counterparts and vice versa sexuality modernity and imaginings of exotified Others became intimately linked The first anthology to provide a worldwide perspective on the birth and development of the field A Global History of Sexual Science contends that actors outside of Europe in Asia Latin America and Africa became important interlocutors in debates on prostitution birth control or transvestitism Ideas circulated through intellectual exchange travel and internationally produced and disseminated publications Twenty scholars tackle specific issues including the female orgasm and the criminalization of male homosexuality to demonstrate how concepts and ideas introduced by sexual scientists gained currency throughout the modern world Routledge Handbook of Sexuality Studies in East Asia Mark McLelland,Vera Mackie,2014-09-15 This collection brings together cutting edge work by established and emerging scholars focusing on key societies in the East Asian region China Taiwan Hong Kong Japan North and South Korea Mongolia and Vietnam This scope enables the collection to reflect on the nature of the transformations in constructions of sexuality in highly developed developing and emerging societies and economies Both Japan and China have established traditions of sexuality studies reflecting longstanding indigenous understandings of sex as well as more recent developments which interface with Euro American medical and psychological understandings Authors reflect upon the complex colonial and economic interactions and cultural flows which have affected the East Asian region over the last two centuries They trace local flows of ideas instead of defaulting to Euro American paradigms for sexuality studies Through looking at regional and global exchanges of ideas about sexuality this volume adds considerably to our understanding of the East Asian region and contributes to wider discussions of social transformation modernisation and globalisation It will be essential reading in undergraduate and graduate programs in sexuality studies gender studies women s studies and masculinity studies as well as in anthropology

sociology history cultural studies area studies and health sciences      *Writing Transnational History* Fiona Paisley, Pamela Scully, 2019-09-19 Over the past two decades transnational history has become an established term describing approaches to the writing of world or global history that emphasise movement dynamism and diversity This book investigates the emergence of the transnational as an approach its limits and parameters It focuses particular attention on the contributions of postcolonial and feminist studies in reformulating transnational historiography as a move beyond the national to one focusing on oceans the movement of people and the contributions of the margins It ends with a consideration of developing approaches such as translocalism The book considers the new kinds of history that need to be written now that the transnational perspective has become widespread Providing an accessible and engaging chronology of the field it will be key reading for students of historiography and world history      The Bloomsbury Handbook of World Theory Jeffrey R. Di Leo, Christian Moraru, 2021-11-18 Disciplines from literary studies to environmentalism have recently undergone a spectacular reorientation that has refocused entire fields methodologies and vocabularies on the world and its sister terms such as globe planet and earth The Bloomsbury Handbook of World Theory examines what world means and what it accomplishes in different zones of academic study The contributors raise questions such as What happens when world is appended to a particular form of humanistic or scientific inquiry How exactly does worlding bear on the theoretical operating system and the history of that field What is the theory or theoretical model that allows world to function in a meaningful way in coordination with that knowledge domain With contributions from 38 leading theorists from a vast range of fields including queer studies religion and pop culture this is the first large reference work to consider the profound effect both within and outside the academy of the worlding of discourse in the 21st century      Gender, Sexuality and Violence in Organizations Jeff Hearn, Wendy Parkin, 2001 This exceptionally interesting study provides an up to date and integrated perspective on organizations violence gender and sexuality It pays particular attention to the power wielded by hierarchies of heterosexual men and the ways in which this produces violence in different carefully analyzed forms This book is a major contribution to the construction of sociological and political knowledge that is not founded on the dominant definitions of heterosexual masculinities Professor Terrell Carver University of Bristol This is a wide ranging and authoritative book The authors draw attention to the huge amount of evidence now available that documents the gendering and sexualising processes at the core of organisational life While they never nag about violation and inequality they are nonetheless relentless in confronting the reader with the weight of evidence Professor Rosemary Pringle University of Southampton This book brings together the themes of gender sexuality violence and organizations The authors synthesize the literature and research which has been done in these fields and provide a coherent framework for understanding the interrelationship between these concepts The importance of violence and abuse and particularly men s violence to women children and other men has been well established especially through feminist and some pro feminist research The insights of this scholarship have rarely been

applied to organizational analysis The authors draw on this literature and their own research as well as relevant literatures on safety and risk at work anxiety and stress at work organizational policies on violence sexual harassment and bullying in organizations and male sexuality to provide valuable information on violence in and around organizations Gender Sexuality and Violence in Organizations breaks new ground in organization studies and will be essential reading for academics and students in both organization studies and all those studying issues of gender and sexuality in organizations
