Buck, 2017-11-16 The disciplinary triad of open access multimodality and writing center studies presents a timely critical lens for discussing academic publishing in a moment of crucibilic change where rapid technological advancements force scholars and institutions to question what is produced and counts as academic writing Using historiographic quantitative and qualitative analysis *Open Access Multimodality and Writing Center Studies* sees writing center scholarship as a microcosm of many of the larger issues at play in the contemporary academic publishing landscape This case study approach reveals the complex imbricated ways that questions about publishing manifest both within the content of journals and as related to academics perceptions as signifiers of disciplinary visibility identity and transformation More than just reaffirming the conventional wisdom about these changes in publishing that these shifts are happening and we do not always know how to pinpoint them *Open Access Multimodality and Writing Center Studies* suggests that scholars in all fields compositionists and writing center practitioners be conscious of the ways they are complicit in maintaining barriers to accessibility and innovation Chapter 5 of this book is available open access under a CC BY 4.0 license
