Ticket to Write Susan Sommers Thurman, William L. Gary, Jr., 2012-09-21 Ticket to Write a cutting edge developmental writing textbook focuses on contemporary media and issues that stimulate student learning covers paragraph and essay development simultaneously and employs a solutions approach to grammar

Developing Writing Skills David James, 2016-11-12 This book aims to broaden the reader's interest in language as an essentially human activity and as an art form. However, it is less concerned with encouraging creative writers than in sharpening sensitivity to the billions of words and word combinations that surround us. Of the four language skills (listening, speaking, reading, and writing), writing is the most difficult. It is also the skill by which we are often judged by others as worthy to proceed to higher learning, say, or to be interviewed for a post of special responsibility. It is the sector that causes most anxiety for pupils and parents. As an essentially self-help guide, this book may be used as a supplement to regular classes; however, it is predominantly a stand-alone manual that eschews regular drills and places the onus on the student to question our use of written and spoken words. Each of the 60 or so one-page chapters simply outlines the topic and follows this with a To Do section with no answers. The student will realise that language is arbitrary and that he/she is the final judge. *Developing Writing Skills* is not merely about getting you through exams but encouraging an interest in language for life. It is a practical book but not a grammar book; it encourages you to read widely and choose your words with care to expand your word store, to write continually and self-critically, and learn to take a pride in a sentence. Students may look askance at the latter because schools are essentially market-orientated, encouraging performance through various stages and obsessed by league tables and university places. Life does not begin with a first-class honours degree and end with a career as a heart surgeon or a barrister; it begins and ends with an attempt to grapple with language sounds and later its accompanying marks on paper rather than marks in a teacher's record book.

Beginning English Writing Skills Mona Scheraga, 1998 Provides instruction in basic writing skills for adult and young adult students, describing various types of writing such as notes and messages, forms, letters, and mail orders, academic and on-the-job writing, and including a vocabulary list, examples, and exercises for each style.
