

# BOWED STRING INSTRUMENTS

## VIOLIN & OTHERS

### SKEDDING

What was making those angelic tones? Talbot and Charlie turned towards the pleasing sound. Their gaze stopped at a girl holding an elegant instrument under her chin, using a slim bow to coax out the subtle trills of a lovely composition. No wonder they speak of the violin as a prince among musical instruments!

### WHAT IS A VIOLIN?

A violin is a bowed string instrument with a fully rounded wooden body. As opposed to the case of the strings, there are several violins in an orchestra to ensure that this properly bowed and not detuned out for the wood instruments. The violin has long been an important part of the classical tradition, especially in Europe.

### Bow

The violin has four strings and is played with the bow. The bow is composed of a wooden stick with a ribbon of horsehair lying over them and is used to play the part. A violin bow looks like an archer's bow - indeed, the instrument of choice was an important inspiration to its creation. Performers enter an instrument of the bow across the strings to create.

### A LITTLE ABOUT THE HISTORY OF THE BOW

The first bows originated in ancient times in India and China. The bow appeared in north Africa and Spain around the 15th century. From the 17th century in Germany, the bow became straighter as it became progressively more like the bow of today.

### CONSTRUCTION OF A VIOLIN

A violin is composed around a wood box referred to as the body. The body comprises two wooden plates, with curves on each side in the shape of the letter "C" providing resistance for the bow. The plates are joined by means of the yth gambrel. To the body of the violin is attached the neck, which is composed of the longitudinal and the curved, spiral-shaped and joint, known as the scroll. The strings are tightened by means of tuning pegs, which pass over the bridge.

## ORIGINATION OF THE VIOLIN

### RYKANAHATHA

The first and oldest stringed instrument, the ryanahatha originated in India. It was based around a simple hollowed-out cylinder of an empty vessel and two guitar-like strings. It was played with a bow of bamboo cane.

### REBAR

The ancestors of the violin include an Indian instrument called the rebab. Unlike the ryanahatha, it was three-stringed. Four strings in the upper place had increased since it was played with a simple wooden bow.

### CRUTH

The cruth is an early Medieval stringed instrument. Initially, it was plucked and strummed by finger to accompany their song. In the 13th century, it was substituted with a bow. From there on, the cruthes resembled those of the cruth strings with a bow and the bottom two with the thumb. The original cruth was the second instrument of Cuba, India.

## GUITAR OR VIOLIN?

The violin is one of the most difficult musical instruments to play. Unlike the guitar, it has no frets, so the player must accurately place his or her fingers in order to achieve the desired notes. To play, violins must be able to fine-tune their notes with great precision. Whereas violins play the violin must have an excellent musical ear.

### HOPPING AND SKIPPING TO THE VIOLIN

The most common names for the violin is a fiddle. The violin was extremely popular in the Middle Ages. The use of violins over the other Indian, more widely used, fiddles, is not clear, but it may be that the violin was more popular in the north of Europe.

### WHEEL OF FORTUNE

### GENUINE VIOLIN

In the space of the last century, and their violins, Italian violin makers have gone all the way back to the 17th century. The use of violins has been made more popular by both began to supply some excellent instruments to neighboring France. However, the violin was first made in the Italian city of Brescia. It was in Italy that the first violins were made, which included and which inspired.
