## Strange Triangle:

**Film Composers in America** Clifford McCarty, 2000 *Film Composers in America* is a landmark in the history of film. Here renowned film scholar Clifford McCarty has attempted to identify every known composer who wrote background musical scores for films in the United States between 1911 and 1970. With information on roughly 20,000 films, the book is an essential tool for serious students of film and a treasure trove for film fans. It spans all types of American films from features, shorts, cartoons, and documentaries to nontheatrical works, avant garde films, and even trailers. Meticulously researched over 45 years, the book documents the work of more than 1,500 composers from Robert Abramson to Josiah Zuro, including the first to score an American film, Walter C. Simon. It includes not only Hollywood professionals but also many composers of concert music as well as popular music and other genres whose cinematic work has never before been fully catalogued. The book also features an index that lets readers quickly find the composer for any American film through 1970. To recover this history, much of which was lost or never recorded, McCarty corresponded with or interviewed hundreds of composers, arrangers, orchestrators, musical directors, and music librarians. He also conducted extensive research in the archives of the seven largest film studios: Columbia, MGM, Paramount, RKO, 20th Century Fox, Universal, and Warner Bros. and wherever possible, he based his findings on the most reliable evidence: that of the manuscript scores and cue sheets, as opposed to less accurate screen credits. The result is the definitive guide to the composers and musical scores for the first 60 years of American film.

**THE CIA, JFK & UFOs** Gerald Eastwood, This book is light years ahead of any counterparts. In fact, it is one of a kind. It is a page-turner. It provides shocking details about the CIA-sponsored assassination of JFK. The CIA kept a very accurate and detailed record of the plans and progress being made for the assassination, right up to the date and time, including telephone calls and meetings. Elements in the military-industrial intelligence complex wanted Kennedy killed because he was threatening to put them out of business. The Cuban Missile Crisis, the closest the world has ever come to nuclear war, spurred him to do this. As a result, he developed an ancient enemy: the Deep State, as we know it. This Deep State apparatus also engineered a coup many years later, with devastating results: the current Ukraine War. We delve deeply into their modus operandi. Finally, we discuss the major topic once the background and foreground are understood: This is the mysterious UFO Phenomenon, which has occurred worldwide since World War II. Every type of case is explored and analyzed. The participation of the Pentagon, the NSA, the DIA, and other intelligence groups are pursued and brought to light. Some of the strangest cases in the world are reviewed. The truth is astounding.
