Hidden Hands Patricia E. Johnson, 2001 Tracing the Victorian crisis over the representation of working class women to the 1842 Parliamentary bluebook on mines with its controversial images of women at work *Hidden Hands* argues that the female industrial worker became even more dangerous to represent than the prostitute or the male radical because she exposed crucial contradictions between the class and gender ideologies of the period and its economic realities Drawing on the recent work of feminist historians Patricia Johnson lays the groundwork for a reinterpretation of Victorian social problem fiction that highlights its treatment of issues that particularly affected working class women sexual harassment the interconnections between domestic ideology and domestic violence their relationships to male dominated working class movements such as Luddism Chartism and unionism and their troubled connection to middle class feminism Uncovering a series of images in Victorian fiction ranging from hot tempered servants and sexually harassed factory girls to working class homemakers pictured as beaten dogs *Hidden Hands* demonstrates that representations of working class women however marginalized or incoherent reveal the very contradictions they are constructed to hide and that the dynamics of these representations have broad implications both for other groups such as middle class women and for the emergence of working class women as writers themselves

The Routledge Companion to Working-Class Literature Ben Clarke, 2024-12-05 The Routledge Companion to Working Class Literature provides an overview of the history theory and analysis of working class literature Taking a global and intersectional approach the Companion demonstrates that literature is central to the re interpretation of the working class a process that involves rereading the past as well as mapping the present The collection examines how working class literature is defined and the functions the term serves It maps current debates and traces the ways in which a wide variety of theoretical and political movements have shaped the field Challenging

the stereotypical view that working class writing is concerned solely with white male industrial labourers in the Global North the volume features chapters on subjects from early modern writing about the poor in England to contemporary poetry by Asian migrant workers Exploring the theoretical problems of writing about class as well as providing detailed readings of specific texts it demonstrates the richness and diversity of this rapidly developing field and looks to the future of working class literature The Routledge Companion to Working Class Literature is an accessible wide ranging resource It emphasizes difference and debate bringing distinct texts traditions and critical perspectives into dialogue and is essential for any student or researcher looking at concepts of class within literary studies

The Working-class Intellectual in Eighteenth- and Nineteenth-century Britain Aruna Krishnamurthy,2009 This collection of essays contributes to scholarship on the emergence of the working classes by filtering the formation of working class identity through the rise of the working class intellectual a unique cultural figure at the crossroads of two disparate worlds The essays cover a range of familiar and unfamiliar figures from the 1730s to the 1850s shedding light on key moments of working class self expression

The Oppositional Aesthetics of Chartist Fiction Rob Breton,2016-03-10 Redressing a gap in Chartism studies Rob Breton focuses on the fiction that emerged from the movement placing it in the context of the Victorian novel and reading it against the works aimed at the middle class Breton examines works by well known writers such as Ernest Jones and Thomas Cooper alongside those of obscure or anonymous writers rejecting the charge that Chartist fiction fails aesthetically politically and culturally Rather Breton suggests it constitutes a type of anti fiction in which the expectations of narrative are revealed as irreconcilable to the real world Taking up a range of genres including the historical romance and social problem story Breton theorizes the emergence of the fiction against Marxist conceptualizations of cultural hegemony In situating Chartist fiction in periodical print culture and specific historical moments this book shows the ways in which it serves as a critique of mainstream Victorian fiction

Working Class in Victorian Fiction, The P. J. Keating,1971 *Toward a Working-class Canon* Paul Thomas Murphy,1994 Noting that working class writers and editors actively sought to define for themselves the spiritual and political role literature played for an emerging working class Murphy concludes that while there was no uniform working class interpretation of literature working class journalists conducted a lively and continuing debate about literature and that their agreements and disagreements show a thriving and evolving aesthetic
