Ashes ... Stefan Żeromski,1928 Shows the unsightly side of the Habsburg Empire It is a declaration of disagreement with idealization of the Austrian partition and the model of state management used in its territory From the postcolonial point of view it is a novel about people and territories forced in spite of bloody resistance to become the periphery of an empire The Old Republic of Poland was not a glorious metropolis but it

was still a metropolis Colonization transformed and divided this metropolis into provinces of three empires with all the consequences that a transformation of this kind brings The so called Polish Sarmatism from which the heroes of Ashes derive endowed citizens of Sarmatian Poland with a sense of self worth and liberty Austrian colonization destroyed their liberty and compelled the Poles to serve the interests of their conquerors Ashes is a narrative of the Sarmatian culture that survived among the nobility with pedigrees and estates and was also potentially present among smallholders with no pedigree and no assets The novel suggests that it is not necessary to be a noble to possess the sense of liberty that the Republic of Poland developed and cultivated
