### **Becoming a Teacher of Writing in Elementary Classrooms** Donna Kalmbach Phillips, Mindy Legard

Larson, 2015-12-22 *Becoming a Teacher of Writing in Elementary Classrooms* nurtures teachers' identities as writers, connects to the realities of writing instruction in real and diverse classrooms, and encourages critical and creative thinking. This text is about writing instruction as a journey teachers and students embark on together. The focus is on learning how to teach writing through specific teaching and learning structures found in the Writing Studio: mini lessons, teacher and peer conferencing, guided writing, and sharing, celebrating, and broadcasting writing. Pedagogical features include teaching structures and strategies, Problematizing Practice, classroom scenarios, assessment resources, and a Companion Website. Because a teacher who views him or herself as a writer is best positioned to implement the Writing Studio, a parallel text, *Becoming a Writer*, gives readers space to consider who they are as a writer, their personal process as a writer, and who they might become as a writer.

### **Intensifying Classroom Routines in Reading and Writing Programs** Michael P.

Ford, 2017-06-15 Three common routines are seen in almost every primary language arts program: morning messages, shared readings, and word walls. These routines should be integrated to support the total language arts program but are teachers of grades K-2 getting the most bang for their buck out of these activities. Morning messages can become very routinized and repeat the same experiences over and over again. Shared readings are sometimes conducted with little variation in spite of changing demands from the texts being used and changing needs in the learners with whom they are being used. Word walls might be put up with some attention early in the year and remain virtually unchanged as the year moves forward. *Intensifying Classroom Routines in Reading and Writing Programs* focuses on how teachers can get more instructional mileage out of these three common classroom routines. Author Michael P. Ford lays out step-by-step, day-by-day plans to put those three key routines on a cycle that changes as students move through developmental phases. This resource helps teachers plan for emergent and early readers and writers. It also looks at how teachers can assist students as they move through critical areas including concepts of print, alphabetic knowledge, phonological awareness, sound-symbol relationships, high-frequency words, structural analysis, context clues, comprehension strategies, and composition strategies. With these intensified routines in place, students will clearly see connections between reading and writing.

[Reading Assessment and Instruction for All Learners](#) Jeanne Shay Schumm, 2006-05-04 Weaving together the latest knowledge and best practices for teaching children to read, this indispensable text and professional resource provides a complete guide to differentiated instruction for diverse learners. Uniquely integrative, the book places the needs of English language learners and students with disabilities front and center instead of treating them as special topics. Accessible chapters on each of the core components of literacy clearly demonstrate how to link formal and informal assessment to evidence-based instruction. Special features include Research Briefs, Tech Tips, Internet Resources, Reflection and Action Questions, and dozens of reproducible student activities and
