Nutrition Guide Toolkit

Rachel Lumbis, Tierney Kinnison

Nutrition Guide Toolkit:

A toolkit for incorporating fish into the home-grown school feeding programme Andrianarimanana M., Ahern M., Toppe J., Polo Galante A., 2024-06-13 Food and nutrition security is one of the 17 Sustainable Development Goals enshrined in the 2030 Agenda for Sustainable Development. In an attempt to contribute to reaching this objective, school feeding programmes are serving meals to over 418 million pre-primary, primary and secondary schoolchildren around the world. The positive experience from a project supported by the Food and Agriculture Organization of the United Nations (FAO) in Angola, Honduras and Peru that incorporated locally procured fish into home-grown school feeding (HGSF) programmes led to the elaboration of this toolkit. This toolkit is designed to support governments, project designers, managers and practitioners involved in the fishery value chain and school feeding who want to incorporate locally procured, safe, nutritious and affordable fish and fish products into their existing HGSFs. Therefore, this toolkit is expected to assist them during the rapid assessment of the situation of the school feeding and fishery sector and the identification of challenges and opportunities present while incorporating fish and fish products into HGSFs. To this end, this toolkit adopts three main approaches: the Sustainable Food Value Chain for Nutrition to enhance the consideration of nutrition; the gender transformative approach to support women fisherfolk in their activities and increase their participation in school feeding programmes; and local and inclusive food procurement to connect public demand for food to small-scale fisherfolk. Specifically, this toolkit proposes 4 phases and 15 flexible and adaptable tools to sustainably serve fish and fish products at schools.

An Interprofessional Approach to Veterinary Nutrition Rachel Lumbis, Tierney Kinnison, 2023-05-31 In veterinary practice, the interface between veterinarians, veterinary nurses or technicians and paraprofessional team members is crucial. It influences patient care, incidence of medical errors, client satisfaction, success of the veterinary practice and revenue generation. Ensuring a coherent approach to the maintenance of animal health and wellbeing is of paramount importance, yet challenges such as interprofessional prejudice, misunderstanding of motivations and a lack of recognition, respect, empowerment or trust can prevent best practice. Effective interprofessional communication and collaboration is considered a key factor in the successful implementation of nutritional assessment and a positive team environment founded on respect, trust and mutual support helps overcome challenges and provide the best outcome for both pets and their owners. This book provides evidence-based theory in an accessible and practical way to help veterinary healthcare teams implement interprofessional approaches to nutritional care and support.

Nutrition in Patient Care, An Issue of Physician Assistant Clinics, E-Book Corri Wolf, 2022-09-27 In this issue, guest editors bring their considerable expertise to this important topic. Provides in-depth reviews on the latest updates in the field, providing actionable insights for clinical practice. Presents the latest information on this timely focused topic under the leadership of experienced editors in the field. Authors synthesize and distill the latest research and practice guidelines to create these timely topic-based reviews.

Lifestyle Medicine, Third

Edition James M. Rippe,2019-04-17 The field of lifestyle medicine which is the study of how daily habits and actions impact on both short and long term health and quality of life continues to expand globally The scientific and medical literature that supports the success of these lifestyle habits and actions is now overwhelming Thousands of studies provide evidence that regular physical activity maintenance of a health body weight following sound nutritional practices stress reduction and other good practices all profoundly impact both health and quality of life Following its predecessors Lifestyle Medicine Third Edition is edited by lifestyle medicine pioneer cardiologist Dr James Rippe This edition has been thoroughly updated and represents the expert opinions of 20 section editors as well as more than 150 expert chapter authors whose knowledge span all aspects of this emerging discipline Topics cover lifestyle medicine practices including regular physical activity proper nutrition and weight management These principles are applied to the prevention and or treatment of a wide variety of chronic conditions ranging from heart disease and diabetes to cancer mental health addiction and injury prevention This book serves as evidence base for individuals who wish to practice lifestyle medicine or incorporate some of its principles into either general medicine or subspecialty practice It provides valuable information to healthcare workers in the fields of nutrition exercise physiology psychology behavioral medicine health promotion and public policy where lifestyle medicine principles play an ever increasing role Food Security Policy, Evaluation and Impact Assessment Sheryl L.

Hendriks,2019-12-06 This book offers an essential comprehensive yet accessible reference of contemporary food security discourse and guides readers through the steps required for food security analysis Food insecurity is a major obstacle to development and achievement of the Sustainable Development Goals It is a complex issue that cuts across traditional sectors in government and disciplines in academia Understanding how multiple elements cause and influence food security is essential for policymakers practitioners and scholars This book demonstrates how evaluation can integrate the four elements of food security availability access nutrition and resilience and offers practical tools for policy and programme impact assessment to support evidence based planning Aimed at researchers postgraduates and those undertaking professional development in food studies agricultural economics rural development nutrition and public health the book is key reading for those seeking to understand evidence based food security analysis **Diet and Exercise in Cystic Fibrosis** Ronald Ross
