*Solar System (with Infotrac and the Sky CD-ROM)* Seeds,1999-07-23 This text is one of two splits from Seeds s FOUNDATIONS OF ASTRONOMY It contains the introductory and historical chapters from FOUNDATIONS as well as all the planets chapters and the chapter on extraterrestrial life This book teaches planetary astronomy not just by presenting facts but by building a conceptual framework and then letting the facts fit into that framework It uses astronomy to show how science works and how physical laws prescribe the solar system and the universe **Astronomy** Michael A. Seeds,1999 This text invites students to learn the essentials of astronomy within the larger context of understanding how science works It allows students to focus on central ideas upon which the relevant facts hang It is accessible and because math is set off in boxes allows instructors to teach students of differing math abilities It covers the history of astronomy elementary physics concepts the Solar System the origins of the Universe and stars and galaxies **Light Years Away** Sudhir Routray,2004-12 Light Years Away covers the wonderful things of our universe and the possibilities beyond our visible range As the name suggests most of the subject matters of the book are of distant objects like our neighbouring stars star clusters nebulae galaxies galaxy clusters and superclusters In the final chapters the possibilities beyond the observable limit and beyond our universe have been looked at carefully But the facts of solar system and earth have not been ignored The whole view of the creation has been presented in a lucid format The basic questions that we encounter like where is the end boundary of the universe what can be the nature of the extra universal things is light the fastest why we are unable to explain the universe etc have been addressed in a scientific and logical but unsophisticated way Of course some back ground in the subjects like physics and astronomy can help in the better understanding into the matter But for any enthusiast of space and cosmos irrespective of the back ground and age Light Years Away will be a satisfactory text **The Solar System** Michael A.
