Sort Propaganda:

Proceedings ..., 1920 *Minutes*, 1928 **The Black Art** Lee Richards, 2010 As well as the open propaganda of the British Government produced during the Second World War like the foreign language radio broadcasts of the BBC and the aerial propaganda leaflets dropped by the RAF over Occupied Europe a secret underground propaganda battle was also fought The Black Art documents this history of Britain's clandestine psychological warfare conducted against the Nazi's Third Reich This black propaganda was the work of several secret intelligence organisations including the Political Warfare Executive and Special Operations Executive Using previously undiscovered primary source material The Black Art charts the progress of and catalogues the range of propaganda leaflets covertly distributed across Occupied Europe and beyond to subvert the morale of German soldiers and civilians The propaganda included such ruses as malingering instructions to fake the symptoms of illness tips for desertion to neutral countries parody postage stamps advice on sabotaging a U boat counterfeit ration coupons identity documents and newspapers plus numerous other falsely attributed leaflets and stickers Over 350 illustrations are included

The Absent-minded Imperialists Bernard Porter, 2004 The British empire was a huge enterprise To foreigners it more or less defined Britain in the nineteenth and early twentieth centuries Its repercussions in the wider world are still with us today It also had a great impact on Britain herself for example on her economy security population and eating habits One might expect this to have been reflected in her society and culture Indeed this has now become the conventional wisdom that Britain was steeped in imperialism domestically which affected or infected almost everything Britons thought felt and did This is the first book to examine this assumption critically against the broader background of contemporary British society Bernard Porter a leading imperial historian argues that the empire had a far lower profile in Britain than it did abroad Many Britons could hardly have been aware of it for most of the nineteenth century and only a small number was in any way committed to it Between these extremes opinions differed widely over what was even meant by the empire This depended largely on class and even when people were aware of the empire it had no appreciable impact on their thinking about anything else Indeed the influence far more often went the other way with perceptions of the empire being affected or distorted by more powerful domestic discourses Although Britain was an imperial nation in this period she was never a genuine imperial society As well as showing how this was possible Porter also discusses the implications of this attitude for Britain and her empire and for the relationship between culture and imperialism more generally bringing his study up to date by including the case of the present day USA
