World Of My Own:

A World Of My Own Graham Greene,2011-04-20 Graham Greene was always deeply interested in the role played by the subconscious in his writing and the private world of his dreams was one that he nurtured carefully recording it almost daily in his dream diaries Selecting from these dream diaries he prepared this small treasure for publication just before his death in 1991 a last gift from a great writer to delight and entertain his readers **The world of matter and the spirit of man**

Theodore Parker,1907 *Round About the Earth* Joyce E. Chaplin,2012-10-30 In this first full history of around the world travel Joyce E Chaplin brilliantly tells the story of circumnavigation Round About the Earth is a witty erudite and colorful account of the outrageous ambitions that have inspired men and women to circle the entire planet For almost five hundred years human beings have been finding ways to circle the Earth by sail steam or liquid fuel by cycling driving flying going into orbit even by using their own bodily power The story begins with the first centuries of circumnavigation when few survived the attempt in 1519 Ferdinand Magellan left Spain with five ships and 270 men but only one ship and thirty five men returned not including Magellan who died in the Philippines Starting with these dangerous voyages Joyce Chaplin takes us on a trip of our own as we travel with Francis Drake William Dampier Louis Antoine de Bougainville and James Cook Eventually sea travel grew much safer and passengers came on board The most famous was Charles Darwin but some intrepid women became circumnavigators too a Lady Brassey for example Circumnavigation became a fad as captured in Jules Verne s classic novel Around the World in Eighty Days Once continental railroads were built circumnavigators could traverse sea and land Newspapers sponsored racing contests and people sought ways to distinguish themselves by bicycling around the world for instance or by sailing solo Steamships turned round the world travel into a luxurious experience as with the tours of Thomas Cook Son Famous authors wrote up their adventures including Mark Twain and Jack London and Elizabeth Jane Cochrane better known as Nellie Bly Finally humans took to the skies to circle the globe in airplanes Not much later Sputnik Gagarin and Glenn pioneered a new kind of circumnavigation in orbit Through it all the desire to take on the planet has tested the courage and capacity of the bold men and women who took up the challenge Their exploits show us why we think of the Earth as home Round About the Earth is itself a thrilling adventure *Husserlian Phenomenology and Contemporary Political Realism* Michael F. Hickman,2023-04-21 Drawing on Husserl s concepts of communalization and intersubjectivity this book aspires to an orientation in which human beings are understood in the context of their full blooded concrete existence the life world Michael F Hickman offers a fresh return to the raw experience of politics through the contemporary realist idea of radical disagreement as the circumstances of politics He surpasses realist limitations through the acknowledgment of the constitution of the world as an achievement of the intersubjective community while crucially asserting that the political horizon is distinguishable from but coterminous with the life world itself Through the use of hypotheticals an unprecedented phenomenological account of political experience is offered in which three major themes of

political subjectivity are explored belonging and possession authority and foreignness and political others Finally a multi phase analysis of legitimacy is conducted which taking into account universal human rights and concretely identifiable expressions of acceptance is nonetheless rooted in a source the life world that reaches beyond any mere collectivity of ego acts Utilizing an expanded philosophical universe Husserlian Phenomenology and Contemporary Political Realism offers a path forward from the ideological stalemates in which liberal theory seems hopelessly locked It will appeal to scholars involved in the study of political theory and philosophy international relations intercultural studies human rights and phenomenology

The Brunonian Brown University,1905 *Infinite Autonomy* Jeffrey Church,2011-02-01 G W F Hegel and Friedrich Nietzsche are often considered the philosophical antipodes of the nineteenth century In *Infinite Autonomy* Jeffrey Church draws on the thinking of both Hegel and Nietzsche to assess the modern Western defense of individuality to consider whether we were right to reject the ancient model of community above the individual The theoretical and practical implications of this project are important because the proper defense of the individual allows for the survival of modern liberal institutions in the face of non Western critics who value communal goals at the expense of individual rights By drawing from Hegelian and Nietzschean ideas of autonomy Church finds a third way for the individual what he calls the historical individual which goes beyond the disagreements of the ancients and the moderns while nonetheless incorporating their distinctive contributions
