World Science Report 1998 World Science Report:

World Science Report 1998, 2003-01-01 *World Science Report 1998* Unesco, 1998 This year's edition of the World Science Report examines the role played by science in resolving the major issues facing human society such as food security water resources and disease [World Science Report 1998](#), 1998 **A Parliament of Science** Michael Tobias, Teun Timmers, Gill Wright, 2003-09-11 Interviews with scientific leaders focus on the challenges promises and perils of science and technology **Unesco List of Documents and Publications** Unesco, 1998 *UNESCO Science Report, 2005* Unesco, 2005 This is the fourth in a series of UNESCO reports which periodically examine the emerging trends in scientific research and higher education around the world Written by an independent team of experts each chapter describes how research and development activities are organised in the following countries or regions the United States Latin America and the Spanish speaking Caribbean the Caribbean Common Market CARICOM countries the European Union South East Europe the Russian Federation the Arab States Africa Japan East and South East Asia South Asia Key themes highlighted include the development of knowledge societies the drive for innovation and the role of the private sector the importance of international co operation in broadening the number of countries involved in scientific research and the strengthening position of Asia on the international scene driven largely by China's dynamism **World Science Report** H. Moore, 1998-01-01 This year's edition of the World Science Report examines the role played by science in resolving the major issues facing human society such as food security water resources and disease **The Transformation of Global Higher Education, 1945-2015** Paul Tiyambe Zeleza, 2016-09-01 This book explores some of the major forces and changes in higher education across the world between 1945 and 2015 This includes the explosions of higher education institutions and enrollments a development captured by the notion of massification There were also profound shifts in the financing and economic role of higher education reflected in the processes of privatization of universities and curricula realignments to meet the shifting demands of the economy Moreover the systems of knowledge production organization dissemination and consumption as well as the disciplinary architecture of knowledge underwent significant changes Internationalization emerged as one of the defining features of higher education which engendered new modes rationales and practices of collaboration competition comparison and commercialization External and internal pressures for accountability and higher education's value proposition intensified which fuelled struggles over access affordability relevance and outcomes that found expression in the quality assurance movement [Research for Development in the Middle East and North Africa](#) International Development Research Centre (Canada), 2000 *Research for Development in the Middle East and North Africa* **The International Handbook on Environmental Technology Management** Dora Marinova, David Annandale, John Phillimore, 2008-01-01 This is an excellent textbook suitable as a core text for environmental engineers and environmental scientists but equally it should in my opinion be compulsory reading for all researchers practitioners and policy makers regardless of their discipline because it has

relevance for all In fact the book is so lively and understandable that everyone and anyone could and should read it Clearly written by a team of recognised environmental authors drawn from around the world it guides the reader through current thinking on the tools and techniques industry As an academic it is a delight to find a book to recommend that I know students will enjoy and one which addresses so many different elements of a diversity of university courses while covering the most important areas of environmental technology and management I am certainly using it to enhance and update the content of some of my own lectures Susan Haile International Journal of Sustainable Engineering This substantial collection draws together a very wide variety of literatures and practices I would expect this book to be a popular purchase by academic libraries principally as a core text R D Management This stunning Handbook is an excellent tool for environmental manager and environmental officer alike It is brimful of ideas case studies and methodologies which stimulate continuous improvement thinking and help train staff to implement sustainability and environmental management concepts Highly recommended Eagle Bulletin This important Handbook is the first comprehensive account that brings together recent developments in the three related fields of environmental technology environmental management and technology management With contributions from more than 55 outstanding authors representing ten countries and five continents the reader is provided with a vast range of insightful perspectives on the latest industry and policy issues With the aid of numerous case studies leading experts reflect on significant changes in the use of technology and management practices witnessed in the last decade Within this Handbook the authors discuss in detail eco modernization and technology transformation environmental technology management in business practices measuring environmental technology management case studies in new technologies for the environment environmental technology management and the future The International Handbook on Environmental Technology Management has a broad audience including researchers practitioners policymakers and students in the fields of sustainability and environmental science Science, Policy and Development in Africa R. Sooryamoorthy, 2020-09-03 An historical and empirical study of science in Africa bringing to light connections between science policy and development **World Social Science Report 1999** Unesco, 1999 Focus on the contributions that the social sciences have been able to make singly or collectively to understanding and to meeting some of the crucial problems of the world The place of the social sciences on a world scale historical trajectory organization financing and practise in different parts of the world origin processing analysis and transmission of data and an overview of how social science research relates to policy politics ethics and the media Certain major issues facing the world and solutions the social sciences have been able to bring social implications of the onrush of computer technology and the life sciences what light can be cast by economics political science and sociology on the stakes of development By sharing a wealth of information and a variety of informed perspectives the World Social Science Report provides a unique view of the present state and future potential of the social sciences Publie aussi en franais Les sciences sociales dans le monde *The Global Technology*

Revolution 2020, In-Depth Analyses: Bio/Nano/Materials/Information Trends, Drivers, Barriers, and Social Implications
Richard Silberglitt, Philip S. Anton, David R. Howell, Anny Wong, Natalie Gassman, 2002-08-30 In 2020 areas of particular importance for technology trends will include biotechnology nanotechnology materials technology and information technology This report the companion document to The Global Technology Revolution 2020 Executive Summary Silberglitt et al MG 475 NIC 2006 assesses in detail a sample of 29 countries with respect to their ability to acquire and implement 16 key technology applications

Nature and Resources, 1998 *Catalogue* Unesco Publishing, 2002 *Science Education International*, 2003 *Human Development and the Acquisition of Advanced Knowledge in Arab Countries* Nādir Farjānī, 2001 **A.C.U. Bulletin of Current Documentation**, 1996 *Proceedings* International Association of Theoretical and Applied Limnology, 2000 **Sixty Years of Science at UNESCO 1945-2005**, 2006 The scientific mandate of the United Nations educational Scientific and Cultural Organization UNESCO linked from the outset science with people peace societal benefits and the environment Among others it has also helped create numerous institutes publications and non governmental organizations to bring together the scientific world This publication offers an inside perspective on the past six decades of this engagement The volume traces through six parts the role played by UNESCO in the history of international science cooperation in an ever changing world I Setting the Scene 1945 1965 II Basic Sciences and Engineering III Environmental Sciences IV Science and Society V Overviews and Analyses and VI Looking Ahead It also features a list of chronological milestones set along the way Publisher s description
