## Writing Woman:

Writing Women's Literary History Margaret J. M. Ezell, 1996-11-08 Ezell critically examines these successful women's literary histories and applies to them the same self-conscious feminism that critics have applied to more traditional methods. Drawing both on French feminisms and on recent historicist scholarship, Ezell points us to new possibilities for the recovery of early modern women's literary history. By championing the recovery of lost women writers and insisting on reevaluating the past, women's studies and feminist theory have effected dramatic changes in the ways English literary history is written and taught. In Writing Women's Literary History, Margaret Ezell critically examines these successful women's literary histories and applies to them the same self-conscious feminism that critics have applied to more traditional methods. According to Ezell, by relying not only on past male scholarship but also on inherited notions of tradition, some feminist historicists replicate the evolutionary narrative model of history that originally marginalized women who wrote before 1700. Drawing both on French feminisms and on recent historicist scholarship, Ezell points us to new possibilities for the recovery of early modern women's literary history.

Writing Women's History Since the Renaissance Mary Spongberg, 2017-03-08 The complaint of Catherine Morland in Jane Austen's *Northanger Abbey* that history has hardly any women at all is not an uncommon one. Yet there is evidence to suggest that women have engaged in historical writing since ancient times. This study traces the history of women's historical writing, reclaiming the lives of individual women historians, recovering women's historical writings from the past, and focusing on how gender has shaped the genre of history. Mary Spongberg brings together for the first time an extensive survey of the progress of women's historical writing from the Renaissance to the present, demonstrating the continuities between women's historical writings in the past and the development of a distinctly woman-centred historiography. Writing Women's History since the Renaissance also examines the relationship between women's history and the development of feminist consciousness, suggesting that the study of history has alerted women to their unequal status and enabled them to use history to achieve women's rights. Whether feminist or anti-feminist, women who have had their historical writings published have served as role models for women seeking a voice in the public sphere and have been instrumental in encouraging the growth of a feminist discourse.

Writing Woman Sheila Delany, 2007-05-01 In Writing Woman, Sheila Delany examines the artifact woman from a radical perspective. Each individual is seen by Delany as an artifact made, not born; laboriously worked up, pieced together, written and rewritten. Other qualities are added to this artifact through novels, poems, lyrics, and copy television scripts, nursery rhymes, and the English language itself. These layers of meaning result in the artifact woman as topic. Sheila Delany traces her own development as a radical thinker in the opening chapter, *Confessions of an Ex-handkerchief Head*, or *Why This Is Not a Feminist Book*. She discusses bourgeois women in medieval life and letters, womanliness, marriage, and misogyny in Chaucer; sex and politics in Pope's *The Rape of the Lock*; the feminist utopias of Charlotte P. Gilman and Marge Piercy; and in
