arts were however excellent resources for training and research due to the country's vast population and border proximity which encompassed a multitude of various styles from which to draw inspiration And finally the text and context of this manuscript by Miyagi Ch jun is dated In other words people in Okinawa and Japan simply do not speak in the manner as written in the essay any longer In our modern times much of the terminology then used is now depreciated or the rhythm of speech is considered ancient For this reason we have included italicized text for the clarification of framework
