in the late 1930s this is the first book length critical study of Larkin's early work his poetry novels short fictions essays and letters The book tells the story of Philip Larkin's early literary development starting with Larkin's earliest literary efforts and his remarkable correspondence with Jim Sutton and ending at the point Larkin's maturity begins with the writing of his first great poems In providing a comprehensive and systematic study of this part of Larkin's life this book also presents a new and surprising narrative of Larkin's development Critics have presented Larkin's early career as a false start which he overcame by swapping Yeats's influence for Hardy's Having re-discovered Hardy's poetry in 1946 the story goes Larkin realised the potential of writing about his own life and disavowed Yeats Central to this book's controversial counter narrative is an insistence on the significance of Brunette Coleman the female heteronym Larkin invented in 1943 Three years before his re-discovery of Hardy Larkin wrote a strange and unique series of works for schoolgirls under Coleman's name These writings not only led him away from Yeats and other hindering influences but also away from himself Whereas the Yeats to Hardy narrative emphasises the autobiographical qualities of Larkin's mature verse Early Larkin proposes that the writer's breakthrough was a result of his burgeoning interest in everything outside himself itself the consequence of his curious experiment with Brunette Coleman

Unnoticed in the Casual Light of Day Tijana Stojkovic, 2013-10-23 Larkin's poems are often regarded as falling somewhere between the traditional plain and the more contemporary postmodern categories This study undertakes a comprehensive linguistic and historical study of the plain style tradition in poetry its relationship with so called difficult poetry and its particular realization in the cultural and historical context of 20th century Britain The author examines the nature of poetry as a type of discourse the elements of and factors in the development of literary styles a close rhetorical examination of Larkin's poems within the described poetic frameworks and his position in the British twentieth century poetic canon
