Вычислительные Машины И Искусственный Интеллект ,1989 *An Incremental Non-linear Planner* Steve A. Chien, 1990 Abstract This paper describes a non linear planner that uses incremental inference to deal with complexity of planning using a representation with conditional effects This planner constructs initial plans using limited

inference to reason about conditional effects of operators While this significantly reduces the computational expense of plan construction it introduces the possibility that the initial plan will make incorrect predictions Because the planner uses a sound method for plan construction sound except for the limited consideration of effects when a plan fails it must be due to an unconsidered conditional operator effect
