cares rethinks monument debates site specificity and art activism in light of problems that strike us as monumental or overwhelming such as war migration and the climate crisis The book shows how artists address these issues from Chicago and Berlin to Oslo Bucharest and Hong Kong in media ranging from marble and glass to postcards graffiti and re enactment A multidirectional theory of site does justice to specific places but also to how far away audiences see them What emerges is a new ethics of care in public art combined with a passionate engagement with reality harking back to the realist aesthetics of the nineteenth century Familiar questions can be answered anew what to do with monuments particularly when they are the products of terror and require removal modification or recontextualisation And can art address the monumental concerns of our present

The Writing of Where

Charles N. Lesh,2022-09-26 In *The Writing of Where* Charles Lesh examines how graffiti writers in Boston remake various spaces within and across the city The spaces readers will encounter in this book are not just meaningful venues of writing but also outcomes of writing itself social spaces not just where writing happens but created because writing happens Lesh contends that these graffiti spaces reinvent the writing landscape of the city and its public relationship with writing Each chapter introduces readers to different writing spaces from bold and broadly visible spots along the highway to bridge underpasses seldom seen by non writers from inconspicuous notebooks writers call bibles to freight yards and model trains from abandoned factories to benches where writers view trains Between each chapter readers will find community interludes responses to the preceding chapters from some of the graffiti writers who worked on this project By working closely with writers engaged in the production of these spaces as well as drawing on work invested in questions of geography publics and writing Lesh identifies new models of community engagement and articulates a framework for the spatiality of the public work of writing and writing studies
