## **World Slicker:**

Exiting the Global Economic Superhighway Hideki Kato,2023-11-27 This book tackles global economic and social issues from a perspective that may seem obvious but which no author has yet taken that we humans are living beings In today s artificially globalized world we have increasingly lost sight of our original humanity Despite the serious environmental social and political problems we are facing we cannot stop focusing on economic growth efficiency and liberalization In doing so we continue to make the world slicker and more unstable This book identifies these conventional values and ways of thinking as the root cause underlying many of today s challenges and it offers the perspective of a bumpier and more organic human existence that provides a greater sense of traction and stability The book begins with a discussion of global systems and structures proposing a world with two systems to limit the effects of artificially constructed globalization The second part examines the modern welfare state outlining a process to revive democracy and social capital by making social issues the business of everyday citizens The third and final part focuses on human well being emphasizing physicality and the Japanese concept of kata as keys to restoring our humanity Rather than searching for specific solutions through specialized knowledge this book makes use of the author s broad perspective acquired through many years of public policy research and reform It asserts that knowledge should be acquired through hands on experience and in studies based on real world situations involving people at the forefront of society s challenges whether politicians businesspeople scientists craftspeople or farmers In both its analysis of humanity s problems and the solutions it offers this book takes an entirely new yet utterly natural approach to steering humanity off the global economic superhighway *Swine World* ,1930 Catholic World ,1930

*Seeking Truth in International TV News* Vivien Marsh,2023-03-17 This book puts CGTN formerly CCTV News and the BBC s international television news head to head interrogating competing truths in the exacting business of news reporting Written by a media scholar and former long serving BBC News journalist Seeking Truth in International TV News asks if China s English language television news programmes are little more than state propaganda and if the BBC can be viewed as a universal news standard to which all other broadcasters should aspire Over 8 years of Xi Jinping s rule it investigates how the international TV news channels of CGTN and the BBC reported on Chinese politics protests in Hong Kong disasters China in Africa and insurgency and its suppression in Xinjiang The comparison reveals uneven editorial imperatives at the Chinese broadcaster and raises questions about the BBC s professed tenets of balance and impartiality It also illustrates how Chinese journalists commit small acts of journalism that push the boundaries of information control A rigorous analysis of reportage from the two channels this book will be relevant to scholars of global media journalism international relations and public diplomacy It will also interest those in academia the media and international affairs who

experience There is no privilege that can make us immune to its touch We are taught to assume health illnesses being just  
temporary breakdowns in the well oiled machinery of the body But illness has its own geography its own laws and  
commandments At a time when the attention of the whole nation is focused on health care Kat Duff inquires into the nature

with chronic fatigue syndrome but what she has to say is applicable to every illness and every one of us For those who are
