Xml Data Management

**Stéphane Bressan, Akmal B.
Chaudhri, Jeffrey Xu Yu, Zoé Lacroix**

Xml Data Management:

XML Data Management Akmal B. Chaudhri, Awais Rashid, Roberto Zicari, 2003 In this book you will find discussions on the newest native XML databases along with information on working with XML enabled relational database systems In addition XML Data Management thoroughly examines benchmarks and analysis techniques for performance of XML databases This book is best used by students that are knowledgeable in database technology and are familiar with XML

Soft Computing in XML Data Management Zongmin Ma, Li Yan, 2010-09-07 Being the de facto standard for data representation and exchange over the Web XML Extensible Markup Language allows the easy development of applications that exchange data over the Web This creates a set of data management requirements involving XML XML and related standards have been extensively applied in many business service and multimedia applications As a result a large volume of data is managed today directly in XML format With the wide and in depth utilization of XML in diverse application domains some particularities of data management in concrete applications emerge which challenge current XML technology This is very similar with the situation that some database models and special database systems have been developed so that databases can satisfy the need of managing diverse data well In data and knowledge intensive application systems one of the challenges can be generalized as the need to handle imprecise and uncertain information in XML data management by applying fuzzy logic probability and more generally soft computing Currently two kinds of situations are roughly identified in soft computing for XML data management applying soft computing for the intelligent processing of classical XML data applying soft computing for the representation and processing of imprecise and uncertain XML data For the former soft computing can be used for flexible query of XML document as well as XML data mining XML duplicate detection and so on

Fuzzy XML Data Management Li Yan, Zongmin Ma, Fu Zhang, 2013-11-25 This book presents an exhaustive and timely review of key research work on fuzzy XML data management and provides readers with a comprehensive resource on the state of the art tools and theories in this fast growing area Topics covered in the book include representation of fuzzy XML query of fuzzy XML fuzzy database models extraction of fuzzy XML from fuzzy database models reengineering of fuzzy XML into fuzzy database models and reasoning of fuzzy XML The book is intended as a reference guide for researchers practitioners and graduate students working and or studying in the field of Web Intelligence as well as for data and knowledge engineering professionals seeking new approaches to replace traditional methods which may be unnecessarily complex or even unproductive

Comparing Native XML Data Management Approaches in Relational and Native XML Databases Ling Ling, 2010 As XML has become widely used XML storage and query support has been added to a number of commercial database systems This has taken two forms relational shredded storage when XML data is mapped to rows of tables and native XML storage Relational shredded storage has been supported for a number of years while native XML storage is just starting to be prevalent in the commercial database area For many use cases native XML storage is now

recommended by database vendors In this thesis a new benchmark called EXRT Experimental XML Readiness Test is used to examine the performance of XML data management features for native XML storage in three commercial database systems including two relational database systems and one XML database system Also details of the implementation of EXRT which is a simple micro benchmark that methodically evaluates the impact of XML query characteristics on the tradeoffs between various XML storage and query processing schemes are described Preliminary results from running benchmarks using EXRT are presented and the lessons learned so far are summarized

XML in Data Management Peter Aiken, M. David Allen, 2004-07-01 XML in Data Management is for IT managers and technical staff involved in the creation administration or maintenance of a data management infrastructure that includes XML For most IT staff XML is either just a buzzword that is ignored or a silver bullet to be used in every nook and cranny of their organization The truth is in between the two This book provides the guidance necessary for data managers to make measured decisions about XML within their organizations Readers will understand the uses of XML its component architecture its strategic implications and how these apply to data management Takes a data centric view of XML Explains how when and why to apply XML to data management systems Covers XML component architecture data engineering frameworks metadata legacy systems and more Discusses the various strengths and weaknesses of XML technologies in the context of organizational data management and integration

[XML Data Mining: Models, Methods, and Applications](#) Tagarelli, Andrea, 2011-11-30 The widespread use of XML in business and scientific databases has prompted the development of methodologies techniques and systems for effectively managing and analyzing XML data This has increasingly attracted the attention of different research communities including database information retrieval pattern recognition and machine learning from which several proposals have been offered to address problems in XML data management and knowledge discovery XML Data Mining Models Methods and Applications aims to collect knowledge from experts of database information retrieval machine learning and knowledge management communities in developing models methods and systems for XML data mining This book addresses key issues and challenges in XML data mining offering insights into the various existing solutions and best practices for modeling processing analyzing XML data and for evaluating performance of XML data mining algorithms and systems

[Database and XML Technologies](#) Zohra Bellahsène, 2003-09-09 This book constitutes the refereed proceedings of the First International XML Database Symposium XSym 2003 held in Berlin Germany in September 2003 The 18 revised full papers presented were carefully reviewed and selected from 65 submissions The papers are organized in topical sections on XML relational database management systems XML query processing systems and tools for XML data processing XML access structures stream processing and updates and design issues

Advanced Applications and Structures in XML Processing: Label Streams, Semantics Utilization and Data Query Technologies Li, Changqing, Ling, Tok Wang, 2010-02-28 This book is for professionals and researchers working in the field of XML in various disciplines who want to improve their understanding of the XML data management

technologies such as XML models XML query and update processing XML query languages and their implementations keywords search in XML documents database web service publish subscribe medical information science and e business Provided by publisher **Database Management Systems** ,2002-01-01 Zschokke Hans-Peter (1899-1968) ,1959 Zeitungsausschnitte 1959 Comparing Shredded and Native XML Data Management Approaches in Relational DBMSs Lin Shao,2010 XML database functionality is becoming more mature over time both in native XML database and relational database products Exploration of new approaches for storing and managing XML information as the major functionality of a database with XML support has become a serious and ongoing challenge to all database system vendors Several benchmarks have been established to evaluate different aspects of XML database performance However there is still no benchmark to evaluate the performance of XML database functionality as compared to relational database functionality This thesis will assess the current state of XML and XQuery support in commercial relational database systems It will also present EXRT Experimental XML Readiness Test which is a new XML benchmark designed to methodically evaluate XML data management tradeoffs such as the impact of query characteristics on the relative performance of shredded versus native XML This benchmark has been implemented and comparisons have been made of two commercial relational database systems Valuable results have been obtained which illustrate the relative performance of different approaches and methods of processing XML even within the same system as well as the importance of some of the factors that the performance depends on The new benchmark which differs from previous XML micro benchmarks tests basic insertion deletion and update performance in addition to read only query performance *Uncertain Spatiotemporal Data Management for the Semantic Web* Bai, Luyi,Zhu, Lin,2024-03-01 In the world of data management one of the most formidable challenges faced by academic scholars is the effective handling of spatiotemporal data within the semantic web As our world continues to change dynamically with time nearly every aspect of our lives from environmental monitoring to urban planning and beyond is intrinsically linked to time and space This synergy has given rise to an avalanche of spatiotemporal data and the pressing question is how to manage model and query this voluminous information effectively The existing approaches often fall short in addressing the intricacies and uncertainties that come with spatiotemporal data leaving scholars struggling to unlock its full potential *Uncertain Spatiotemporal Data Management for the Semantic Web* is the definitive solution to the challenges faced by academic scholars in the realm of spatiotemporal data This book offers a visionary approach to an all encompassing guide in modeling and querying spatiotemporal data using innovative technologies like XML and RDF Through a meticulously crafted set of chapters this book sheds light on the nuances of spatiotemporal data and also provides practical solutions that empower scholars to navigate the complexities of this domain effectively **XML-Based Data Management and Multimedia Engineering - EDBT 2002 Workshops** Akmal B. Chaudhri,Chabane Djeraba,Rainer Unland,Wolfgang Lindner,2003-08-02 This volume comprises papers from the following three workshops that were part of the complete

program for the International Conference on Extending Database Technology EDBT held in Prague Czech Republic in March 2002 XML Based Data Management XMLDM Second International Workshop on Multimedia Data and Document Engineering MDDE Young Researchers Workshop YRWS Together the three workshops featured 48 high quality papers selected from approximately 130 submissions It was therefore difficult to decide on the papers that were to be accepted for presentation We believe that the accepted papers substantially contribute to their particular fields of research The workshops were an excellent basis for intense and highly fruitful discussions The quality and quantity of papers show that the areas of interest for the workshops are highly active A large number of excellent researchers are working in relevant fields producing research output that is not only of interest to other researchers but also for industry The organizers and participants of the workshops were highly satisfied with the output The high quality of the presenters and workshop participants contributed to the success of each workshop The amazing environment of Prague and the location of the EDBT conference also contributed to the overall success Last but not least our sincere thanks to the conference organizers the organizing team was always willing to help and if there were things that did not work assistance was quickly available

The Third International Workshop on XML Data Management (XMLDM 2011), 2012 Efficiency and Effectiveness of XML Tools and Techniques and Data Integration over the Web Stéphane Bressan, Akmal B. Chaudhri, Jeffrey Xu Yu, Zoé Lacroix, 2003-07-01 This book constitutes the thoroughly refereed joint post proceedings of the VLDB 2002 Workshop on Efficiency and Effectiveness of XML Tools and Techniques EEXTT and the CAiSE 2002 Workshop on Data Integration over the Web DIWeb The 10 revised full papers presented were carefully selected during two rounds of reviewing and revision The papers are organized in topical sections on XML languages XML modeling and integration XML storage benchmarking XML and data integration over the Web

Fuzzy Spatiotemporal XML Data Management Luyi Bai, Lin Zhu, 2025-02-25 Spatiotemporal data is not always precise and fuzziness in spatiotemporal data is usually accepted because of the way the world is measured and represented Although eXtensible Markup Language XML recommended by the World Wide Web Consortium W3C has become the de facto standard for data representation and exchange on the Web an edited collection of fuzzy spatiotemporal XML data management studies is still scarce This book studies fuzzy XML approaches for spatiotemporal data management that can greatly enhance the utilization of this sort of data for spatiotemporal applications The book is anticipated to serve as a valuable resource in this field and is expected to attract considerable interest from researchers and developers engaged in the applications within the domain of spatiotemporal data management
