Resource Peripheries in the Global Economy Felipe Irarrázaval, Martín Arias-Loyola, 2021-10-11 This book discusses the conditions that underpin configuration of specific places as resource peripheries and the consequences that such a socio spatial formation involves for those places The book thereby provides an interdisciplinary approach underpinned by economic geography

political ecology resource geography development studies and political geography It also discusses the different technological political and economic changes that make the ongoing production of resource peripheries a distinctive socio spatial formation under the global economy Through a global and interdisciplinary perspective that uncovers ongoing political processes socio economic changes and socio ecological dynamics at resource peripheries this book argues that it is critical to take a more profound appraisal about the socio spatial processes behind the contemporary way in which capitalism is appropriating and transforming nature

AI Business for Everyone Michael T.
