Combat Death in Contemporary American Culture Agnieszka Soltysik Monnet, 2020-12-16 *Combat Death in Contemporary American Culture* Popular Cultural Conceptions of War since World War II explores how war has been portrayed in the United States since World War II with a particular focus on an emotionally charged but rarely scrutinized topic combat death Agnieszka Soltysik Monnet argues that most stories about war use three main building blocks melodrama adventure and horror Monnet examines how melodrama and adventure have helped make war seem acceptable to the American public by portraying combat death as a meaningful sacrifice and by making military killing look necessary and often even pleasurable Horror no longer serves its traditional purpose of making the bloody realities of war repulsive but has instead been repurposed in recent years to intensify the positivity of melodrama and adventure Thus this book offers a fascinating diagnosis of how war stories perform ideological and emotional work and why they have such a powerful grip on the American imagination

The Transformations of Tragedy Fionnuala O'Neill Toning, Erik Toning, Jolyon Mitchell, 2019-11-26
 The Transformations of Tragedy Christian Influences from Early Modern to Modern explores the influence of Christian theology and culture upon the development of post classical Western tragedy The volume is divided into three parts early modern modern and contemporary This series of essays by established and emergent scholars offers a sustained study of Christianity's creative influence upon experimental forms of Western tragic drama Both early modern and modern tragedy emerged within periods of remarkable upheaval in Church history yet Christianity's diverse influence upon tragedy has too often been either ignored or denounced by major tragic theorists This book contends instead that the history of tragedy cannot be sufficiently theorised without fully registering the impact of Christianity in transition towards modernity
