Leckie,John E. Buschman,2008-11-30 In the last 15 years the ground both in terms of technological advance and in the sophistication of analyses of technology has shifted At the same time librarianship as a field has adopted a more skeptical

perspective libraries are feeling market pressure to adopt and use new innovations and their librarians boast a greater awareness of the socio cultural economic and ethical considerations of information and communications technologies Within such a context a fresh and critical analysis of the foundations and applications of technology in librarianship is long overdue
