The systemic and empirical approach to literature and culture as theory and application Steven Tötösy de Zepetnek, Irene Sywenky, University of Alberta. Research Institute for Comparative Literature and Cross-Cultural Studies, 1997

**Self-reflection in Literature**, 2019-12-16 Self reflection is fundamental for human thinking on many levels Philosophy has described the mind's capacity to observe itself as a core element of human existence Political and social sciences have shown how modern democracies depend on society's ability to critically reflect on their own values and practices And literature of all ages has proven self reflexivity to be a crucial trait of cultural production This volume provides the first diachronic panorama of genres forms and functions of literary self reflection and their connections with social political and philosophical discourses from the 17th century to the present Far beyond the usual focus on postmodernist opacity these contributions present a rich tradition of critical transparency Literary texts that show us what is behind and beyond them

**Robert Musil and the Question of Science** Tim Mehigan, Timothy J. Mehigan, 2020 A major new study of Robert Musil by one of the world's leading Musil scholars Musil's extraordinary works the study reveals emerged from the problem of the two cultures

**Problems of Form** Dirk Baecker, 1999 Thus the observer is part of the situation he or she observes The essays in this volume use this idea to describe different social forms as consisting of action observed by further action

**Citation and Precedent** Thomas Oliver Beebee, 2014-03-27 Among Western literatures only the German speaking countries can boast a list of world class writers such as Goethe Hoffmann Kleist Kafka Schmitt and Schlink who were trained as legal scholars Yet this list only hints at the complex interactions between German law and literature It can be supplemented for example with the unique interventions of the legal system into literature ranging from attempts to save literature from the tidal wave of Schund pulp fiction in the early twentieth century to audiences suing theaters over the improper production of classics in the twenty first The long list of instances where German literature cites law or where German law serves literature as a precedent signal the dream of German culture of a unity of interests and objectives between spheres of activity Yet the very vitality of this dream stems from real historical and social processes that increasingly autonomize and separate these domains from each other Beebee examines the history of this dialectical tension through close readings of numerous cases in the modern era ranging from Grimm to Schmitt
