

Teaching Experience

- Teaching experience has an influence in two ways:
 - *Years of experience.*
 - *Previous experience.*
- Teachers' years of experience influence their attitude towards inclusive education. Novices have a more positive attitude towards inclusion.
- Experiences in inclusive practices have a positive impact.

Student Characteristics

- The characteristics that students possess would be conditioning teachers' attitudes to inclusion.
- The type of disability plays an important role in teachers' predisposition towards inclusion.

Time and resources

- Sorhaiza et. al, (2011) recognise that resources and time are a major constraint to the development of inclusive practices.
- Material and human resources are effective for educational inclusion.
- Ratio is an important factor to consider in inclusion.

Teacher training

- Teacher training is essential for inclusion, since it is through their training and the use of different tools that they can provide quality educational responses to students.
- Teachers express the need to continue training in order to respond effectively to the needs that pupils may present.

Teach Lauren Gatti,2016-08-19 This book advances a new framework for learning to teach using in depth case studies to show how learning to teach in any type of program can best be understood as a recursive and dynamic process wherein teachers differentially access programmatic relational experiential disciplinary and dispositional resources In the last twenty years debates in the field of teacher preparation have increasingly become paralyzing and divisive as rhetoric around the failure of university teacher preparation intensifies The author addresses the historical and practical factors that animate these debates arguing that novice teachers and teacher educators must understand the central conflicts in the field however the book also advances a way of approaching learning to teach that accounts for but does not get stuck at the level of programmatic designation Using lively in depth case studies the author shows how novice urban English teachers from two different teacher preparation pathways a university based program and an urban teacher residency learn to teach within a policy context of high stakes testing and college readiness *Interactive Lecturing* Elizabeth F. Barkley,Claire H.

Major,2018-01-24 Tips and techniques to build interactive learning into lecture classes Have you ever looked out across your students only to find them staring at their computers or smartphones rather than listening attentively to you Have you ever wondered what you could do to encourage students to resist distractions and focus on the information you are presenting Have you ever wished you could help students become active learners as they listen to you lecture *Interactive Lecturing* is designed to help faculty members more effectively lecture This practical resource addresses such pertinent questions as How can lecture presentations be more engaging How can we help students learn actively during lecture instead of just sitting and passively listening the entire time Renowned authors Elizabeth F Barkley and Claire H Major provide practical tips on creating and delivering engaging lectures as well as concrete techniques to help teachers ensure students are active and fully engaged participants in the learning process before during and after lecture presentations Research shows that most college faculty still rely predominantly on traditional lectures as their preferred teaching technique However research also underscores the fact that more students fail lecture based courses than classes with active learning components *Interactive Lecturing* combines engaging presentation tips with active learning techniques specifically chosen to help students learn as they listen to a lecture It is a proven teaching and learning strategy that can be readily incorporated into every teacher s

methods In addition to providing a synthesis of relevant contemporary research and theory on lecturing as it relates to teaching and learning this book features 53 tips on how to deliver engaging presentations and 32 techniques you can assign students to do to support their learning during your lecture The tips and techniques can be used across instructional methods and academic disciplines both onsite including small lectures and large lecture halls as well as in online courses This book is a focused up to date resource that draws on collective wisdom from scholarship and practice It will become a well used and welcome addition for everyone dedicated to effective teaching in higher education
