## key strategies for teaching **READING COMPREHENSION SKILLS** to English learners

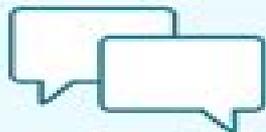

### **Teach and model helpful routines.**

Preview text with ELs prior to reading to activate their engagement and understanding. Show students how to **use context clues** and analyze **word parts** when they encounter words, phrases, and concepts that may be unclear. Help ELs formulate **relevant questions** and review the text to answer those questions.

### **Integrate metacognitive awareness strategies.**

Metacognition involves an awareness and control of one's learning and thought processes. Proficient readers use metacognitive strategies to comprehend text. Before reading, prompt ELs to **make a prediction** about what they will learn. During reading, **ask questions** to help students recognize when their comprehension breaks down and identify the knowledge they need to repair comprehension. After reading, help students **create a main idea statement** to make sure they have understood what they read.

### **Scaffold story retells for English learners.**

Oral retelling of stories is a good way to promote language learning and boost comprehension for ELs. Story retelling can be used with both narrative and expository (informational) text. Give students opportunities to **work in small groups** to identify retell components and practice retells with peers. If a child is unable to retell, or if the retelling lacks sequence and detail, then **provide scaffolds** by prompting the retelling with who, what, when, where, and why questions.

### **Teach summarizing skills with graphic organizers.**

Graphic organizers are a key tool to help ELs (and all students) develop summarizing skills. These **visual and spatial displays** of information help highlight important information and are associated with improving learning and reading comprehension for students of varying academic ability. With the proper instruction, graphic organizers aid in **organizing information** or **depicting relationships** and provide the ideal scaffolding for helping students summarize.
