## The Occupation:

*Europe and the Occupation of Palestinian Territories Since 1967* Federica Bicchi, 2020-12-17 Focusing on key countries and topics this book looks at Europe's involvement in the occupation of Palestinian territories What has been Europe's role in the occupation of Palestinian territories since 1967 How have European actors responded countered and or supported the occupation The international context of this exceptionally long occupation shows a complex web of denunciations but also and especially complicit engagements and indifference The book looks at the perspective of international law before analysing the European Union and key European countries France Germany Norway Sweden United Kingdom It also embraces different perspectives from the debate on campus to the role of European multinational companies to the conceptual approach of the World Bank While much of the literature focuses on Israel Palestine and the United States this volume by leading experts adds a very important piece to the puzzle the European dimension The chapters in this book were originally published as a special issue of the journal *Global Affairs*
