## **The Nurses Story:**

*The Nurse's Story* Carol Gino, 1983-09 Tribute to human dignity and courage by a nurse **The Nurse's Story** Carol Gino, 1982-01-01 The author's sixteen years of nursing experience have rendered up a straightforward account of back-breaking work frustrating bureaucracies high responsibilities with no authority emotional conflicts defeats satisfactions triumphs and joys *The Nurse's Story* Carol Gino, 2015-07-21 With uncompromising honesty Carol Gino strips away the TV image to reveal the gritty truths of a nurse's life from its early optimistic beginnings to the harsh realities and incalculable rewards that sustain her even in the face of a nurse's greatest professional hazard burnout How can she help the family of a terminally ill patient when the doctor can do nothing more What can she do for a 10 year old burn victim for whom most of consciousness is pain How does she convince the doctor of her intuition that the patient cannot survive surgery And how can she leave all of this behind at the end of her shift **The Language of Kindness** Christie Watson, 2018-05-08 1

INTERNATIONAL BESTSELLER A moving lyrical beautifully written portrait of a nurse and the lives she has touched Christie Watson spent twenty years as a nurse and in this intimate poignant and remarkably powerful book she opens the doors of the hospital and shares its secrets She takes us by her side down hospital corridors to visit the wards and meet her unforgettable patients In the neonatal unit premature babies fight for their lives hovering at the very edge of survival like tiny Emmanuel wrapped up in a sandwich bag On the cancer wards the nurses administer chemotherapy and long after the medicine stops working something more important which Watson learns to recognize when her own father is dying of cancer In the pediatric intensive care unit the nurses wash the hair of a little girl to remove the smell of smoke from the house fire The emergency room is overcrowded as ever with waves of alcohol and drug addicted patients as well as patients like Betty a widow suffering chest pain frail and alone And the stories of the geriatric ward Gladys and older patients like her show the plight of the most vulnerable members of our society Through the smallest of actions nurses provide vital care and kindness All of us will experience illness in our lifetime and we will all depend on the support and dignity that nurses offer us yet the women and men who form the vanguard of our health care remain unsung In this age of fear hate and division Christie Watson has written a book that reminds us of all that we share and of the urgency of compassion *The Nurse's Story* Mary Bell Heyer,

*The Nursing Profession* , **A Nurse's Story** Tilda Shalof,2010-02-05 The team of nurses that Tilda Shalof found herself working with in the intensive care unit ICU of a big city hospital was known as Laura's Line They were a bit wild smart funny disrespectful of authority but also caring and incredibly committed to their jobs Laura set the tone with her quick remarks Frances from Newfoundland was famous for her improvised recipes Justine the union rep wore t-shirts emblazoned with defiant slogans like Nurses Care But It's Not in the Budget Shalof was the one who had been to university The others accused her of being sooo sensitive They depended upon one another Working in the ICU was both emotionally grueling and physically exhausting Many patients quite simply were dying and the staff strove mightily to prolong their lives With their skill dedication and the resources of modern science they sometimes were almost too successful Doctors and nurses alike wondered if what they did for terminally ill patients was not in some cases too extreme A number of patients were admitted when it was too late even for heroic measures A boy struck down by a cerebral aneurysm in the middle of a little league hockey game A woman rescued too late from a burning house It all took its toll on the staff And yet on good days they thrived on what they did Shalof describes a colleague who is managing a crashing patient I looked at her Nicky was flushed with excitement She was doing five different things at the same time planning ahead for another five She was totally focused in her element in control completely at home with the chaos There was a huge smile on her face Nurses like to fix things If they can Shalof a veteran ICU nurse reveals what it is really like to work behind the closed hospital curtains The drama the sardonic humour the grinding workload the cheerful camaraderie the big issues and the small all are brought vividly to life in this remarkable book **The Trained Nurse and Hospital Review** ,1923 The Nurse ,1914 When the Nurse Becomes a Patient Cortney Davis,2015 Paintings and reflections that share a nurse's personal experience of illness In the summer of 2013 Cortney Davis a nurse practitioner and author who often writes about her interactions with patients underwent routine one day surgery A surgical mishap led to a series of life altering and life threatening complications resulting in two prolonged hospital stays and a lengthy recovery During twenty six days in the hospital Davis experienced how suddenly a caregiver can become a care receiver and what it's like to be on the other side of the sickbed As a nurse she was accustomed to suffering and to the empathy such witnessing can evoke but as a patient she learned new and transforming lessons in pain fear loneliness abandonment and dependency in the fragility of health and life in the necessity of family support and ultimately in the importance of gratitude Once at home Davis wanted to respond to her illness creatively through her writing but the details seemed too intense too raw for words As her recovery progressed she found release in painting discovering an immediate connection between heart and hand between memory and canvas In a series of twelve paintings she reenvisioned episodes of her illness moments that remained and replayed in her consciousness ultimately providing an education in health care more resonant and more authentic than what she had found in nursing

textbooks Before serving as a nurse in intensive care oncology and women's health Davis believed that she understood what hospitalized patients might be experiencing and how they might be coping Her own illness taught her how little she truly knew and how important it is that all caregivers professionals and family members alike become aware of the physical and the inner emotional needs of their seriously ill patients After the twelve paintings were completed Davis wrote brief commentaries for each image She used her remembrances to clarify and expand on her artwork thereby making her personal story accessible to others While every patient's journey and every caregiver's challenges are unique these intimate and revealing paintings and reflections offer a glimpse into the universal aspects of illness and recovery
