The Wonders She Performs Louis Kaczmarek,1986 *The Female Mystic* Andrea Janelle Dickens,2009-05-30 The Middle Ages saw a flourishing of mysticism that was astonishing for its richness and distinctiveness The medieval period was unlike any other period of Christianity in producing people who frequently claimed visions of Christ and Mary uttered prophecies gave voice to ecstatic experiences recited poems and songs said to emanate directly from God and changed their ways of life as a result of these special revelations Many recipients of these alleged divine gifts were women Yet the female contribution to western Europe s intellectual and religious development is still not well understood Popular or lay religion has been overshadowed by academic theology which was predominantly the theology of men This timely book rectifies the neglect by examining a number of women whose lives exemplify traditions which were central to medieval theology but whose contributions have tended to be dismissed as merely spiritual by today s scholars In their different ways visionaries like Richeldis de Faverches founder of the Holy House at Walsingham or England s Nazareth the learned Hildegard of Bingen Hadewijch of Brabant exemplary voice of the Beguine tradition of love mysticism charismatic traveller and pilgrim Margery Kempe and anchoress Julian of Norwich all challenged traditional male scholastic theology Designed for the use of undergraduate student and general reader alike this attractive survey provides an introduction to thirteen remarkable women and sets their ideas in context

Maria Isabel Petru Plesa,2021-10-27 The novel is a combination between mystery and suspense which introduces you to the subject from the first page The book reveals the extremes of the human condition from the most absurd to the most uplifting a condition that has been present with us at all times Maria Isabel is a fiction novel that unfolds in three dimensions intertwining in a harmonious and intriguing way The first dimension is a historical one an account of life people and places from 17th century Spain The second is a psychological one where we know the subjective feelings of the characters fighting with their own problems their own ephemeris but also human nature in its individual and group manifestation The third dimension is a spiritual one and here we witness the confrontation between religion and spirituality a debate between believing and being between socio cultural programming and freedom a debate in which whoever is right does not win whoever has power wins Here the difference between dry dogma and truth will be perceived very clearly and intensely and any different point of view must be silenced regardless of facts or evidence The great inquisitor was called to a small village to take over and judge a witch The process is complicated everything being atypical and although he is overwhelmed by the situation despite the evidence he decides that the defendant should be purified During the purification he has the surprise of his life a surprise that determines him to reconsider everything he knows a surprise that shakes the world from its foundations and shatters it irretrievably As a result he decides to redeem his previous way of life making a radical decision
