Varieties Of Questions In English Conversation

Suzanne Eggins, Diana Slade

Varieties Of Questions In English Conversation:

Varieties of Questions in English Conversation Elizabeth G. Weber,1993-01-01 This book examines relations which hold between morphosyntactic form and communicative function in discourse by examining form function correlations of noninterrogative questions in ordinary English conversation So called nontypical declarative and nonclausal questions are identified functionally The role morphosyntax plays in the production and interpretation of these forms as doing questioning is then considered Speakers are shown to use specific patterns of morphosyntactic marking to enable recipients to interpret noninterrogatives as functional questions Explanations for morphosyntactic patterns found in the data are stated in terms of discourse use

[Varieties of Questions in English Conversation](#) Elizabeth G. Weber,1993-11-11 This book examines relations which hold between morphosyntactic form and communicative function in discourse by examining form function correlations of noninterrogative questions in ordinary English conversation So called nontypical declarative and nonclausal questions are identified functionally The role morphosyntax plays in the production and interpretation of these forms as doing questioning is then considered Speakers are shown to use specific patterns of morphosyntactic marking to enable recipients to interpret noninterrogatives as functional questions Explanations for morphosyntactic patterns found in the data are stated in terms of discourse use

Responding to Polar Questions across Languages and Contexts Galina B. Bolden,John Heritage,Marja-Leena Sorjonen,2023-12-15 This book is about one of the most fundamental action sequences found across human societies and socio cultural contexts polar questions and their responses Question answer sequences are among the most basic building blocks for sequences of action in interaction and are ubiquitous among the languages of the world Among different types of questions polar questions are the most common occurring with greater frequency in all studied languages This volume presents a collection of conversation analytic studies into responses to polar questions across ten different typologically diverse languages in a range of action environments and social contexts The studies explore different ways in which speakers can respond to polar questions and the relationships between response design the action implemented by the response and the context in which it occurs Taken together the studies assembled in the volume present a nuanced view of polar responses as a situated social action

Decoding Korean Political Talk Sujin Kang,2024-09-30 This book offers an illuminating exploration into the complex world of political communication in South Korea from 2016 to 2021 Through an in depth analysis of 34 political conversations totalling over 275 hours this book presents a groundbreaking interdisciplinary study combining quantitative and qualitative methods It delves into the intricate design and strategic use of questions and answers in political dialogue shedding light on the underlying rhetoric strategy and power dynamics By examining the seismic shifts in South Korea s political landscape including a major political scandal the impeachment of the president North South relations and the COVID 19 pandemic this work presents a unique perspective on how political conversations shape and are shaped by societal and global events It is a vital contribution to the study of Korean linguistics

offering tools and frameworks for analyzing political dialogue in a political setting An indispensable resource for scholars and students in the fields of linguistics political science communication studies and Asian studies as well as political enthusiasts and professionals engaged in diplomatic and governmental sectors It offers readers insights into the nuanced strategies of political discourse enhancing their understanding of how language shapes politics and vice versa Computational Linguistics ,1990 Informational Types of Expressions Dr. James E. Brown, Alla Fedorovna Prii[а]tkina,1996 This book is a unique Russian English reference work that provides learners of Russian with well formed factual conversational statements from over fifty national areas It is the first Russian English reference work to arrange complete sentences according to their meaning For ease of use Russian sentences with their English translators are arranged in parallel columns on the same page Extensive indices in both Russian and English make it simple to find the exact page number for individual words in sentences sentence meanings and important concepts The glossary explains all of the symbols used in the grammatical formulas of syntactic models in the body of the book and gives definitions of terms that are used in defining the various types of informational expressions This book will be of use to beginning students of Russian for finding the most usual conversational expressions Advanced students will find it useful in courses and seminars on the expression of functions and notions in Russian and developing the skill of multiple expression of the same meaning [] ,2004 Analysing Casual Conversation Suzanne Eggins, Diana Slade,2004 *Analysing Casual Conversation* develops a systematic model for the analysis and description of casual conversation in English *Turn-taking in human communicative interaction* Judith Holler, Kobin H. Kendrick, Marisa Casillas, 2016-05-09 The core use of language is in face to face conversation This is characterized by rapid turn taking This turn taking poses a number central puzzles for the psychology of language Consider for example that in large corpora the gap between turns is on the order of 100 to 300 ms but the latencies involved in language production require minimally between 600 ms for a single word or 1500 ms for as simple sentence This implies that participants in conversation are predicting the ends of the incoming turn and preparing in advance But how is this done What aspects of this prediction are done when What happens when the prediction is wrong What stops participants coming in too early If the system is running on prediction why is there consistently a mode of 100 to 300 ms in response time The timing puzzle raises further puzzles it seems that comprehension must run parallel with the preparation for production but it has been presumed that there are strict cognitive limitations on more than one central process running at a time How is this bottleneck overcome Far from being easy as some psychologists have suggested conversation may be one of the most demanding cognitive tasks in our everyday lives Further questions naturally arise how do children learn to master this demanding task and what is the developmental trajectory in this domain Research shows that aspects of turn taking such as its timing are remarkably stable across languages and cultures but the word order of languages varies enormously How then does prediction of the incoming turn work when the verb often the informational nugget in a clause is at the end Conversely how

can production work fast enough in languages that have the verb at the beginning thereby requiring early planning of the whole clause What happens when one changes modality as in sign languages with the loss of channel constraints is turn taking much freer And what about face to face communication amongst hearing individuals do gestures gaze and other body behaviors facilitate turn taking One can also ask the phylogenetic question how did such a system evolve There seem to be parallels analogies in duetting bird species and in a variety of monkey species but there is little evidence of anything like this among the great apes All this constitutes a neglected set of problems at the heart of the psychology of language and of the language sciences This Research Topic contributes to advancing our understanding of these problems by summarizing recent work from psycholinguists developmental psychologists students of dialog and conversation analysis linguists phoneticians and comparative ethologists

Design, Evaluation, and Analysis of Questionnaires for Survey Research Willem E. Saris, Irmtraud N. Gallhofer, 2007-08-03 Aims to give students and survey researchers an introduction to questionnaire design This book also presents a tool with which to measure the quality of questions at the outset
