Venus Plus X:

Venus Plus X Theodore Sturgeon, 2013-04-30 From Hugo and Nebula winner Theodore Sturgeon comes a seeming utopia a world with only one gender and no poverty pollution or war but at what cost Charlie Johns has been snatched from his home on Earth and delivered to the strange future world of Ledom Here violence is a vague and improbable notion Technology has triumphed over hunger overpopulation pollution and even time and space But there is a change Charlie finds even more shocking Gender is a thing of the past Gone are the tensions between male and female Gone is the human preoccupation with sex As Charlie explores Ledom and its people he finds his engrained human precepts are profane in this new world But then why are his hosts so eager for his approval Something isn't right about Ledom's ideal existence And when cracks begin to appear in its flawless facade Charlie must unearth the city's terrible secrets before it's too late Theodore Sturgeon's visionary tale is literary science fiction at its most brazen and inventive A scathing critique of American puritanism that unabashedly explores questions of sexuality and gender it remains as relevant insightful provocative and troubling as when it first appeared in print This ebook features an illustrated biography of Theodore Sturgeon including rare images and never before seen documents from the University of Kansas's Kenneth Spencer Research Library and the author's estate among other sources *Venus plus X* Theodore Sturgeon, Dolf Verroen, 1970

The Battle of the Sexes in Science Fiction Justine Larbalestier, 2023-09-05 Runner up for the Hugo Best Related Book Award 2003 The Battle of the Sexes in Science Fiction is a lively account of the role of women and feminism in the development of American science fiction during its formative years the mid 20th century Beginning in 1926 with the publication of the first issue of Amazing Stories Justine Larbalestier examines science fiction's engagement with questions of femininity masculinity sex and sexuality She traces the debates over the place of women and feminism in science fiction as it emerged in stories letters and articles in science fiction magazines and fanzines The book culminates in the story of James Tiptree Jr and the eponymous Award Tiptree was a successful science fiction writer of the 1970s who was later discovered to be a woman Tiptree's easy acceptance by the male dominated publishing arena of the time proved that there was no necessary difference in the way men and women wrote but that there was a real difference in the way they were read *Venus Plus X* T. Sturgeon, 1960

Queer Universes Wendy Gay Pearson, Veronica Hollinger, Joan Gordon, 2008-03-01 Contestations over the meaning and practice of sexuality have become increasingly central to cultural self definition and critical debates over issues of identity citizenship and the definition of humanity itself In an era when a religious authority can declare lesbians antihuman while some nations legalise same sex marriage and are becoming increasingly tolerant of a variety of non normative sexualities it is hardly surprising that science fiction in turn takes up the task of imagining a diverse range of queer and not so queer futures The essays in *Queer Universes* investigate both contemporary and historical practices of representing sexualities and genders in science fiction literature *Queer Universes* opens with Wendy Pearson's award winning essay on reading sf queerly

The Biopolitics of Gender in Science Fiction Emily Cox-Palmer-White,2021-01-03 Questioning essentialist forms of feminist discourse this work develops an innovative approach to gender and feminist theory by drawing together the work of key feminist and gender theorists such as Judith Butler and Donna Haraway and the biopolitical philosophy of Giorgio Agamben and Gilles Deleuze By analysing representations of the female cyborg figure the gynoid in science fiction literature television film and videogames the work acknowledges its normative and subversive properties while also calling for a new feminist politics of selfhood and autonomy implied by the posthuman qualities of the female machine

New Worlds: Before the New Wave, 1960-1964 John Boston,Damien Broderick,2013-04-30 In the mid 1960s British science fiction and fantasy were convulsed by the New Wave This movement emerged from the SF magazines edited by John Carnell Such brilliant NEW WORLDS and SCIENCE FANTASY writers as J G Ballard Brian W Aldiss John Brunner and Michael Moorcock heralded the rise of this new kind of fantastic fiction John Boston and Damien Broderick s concluding volume of their critical trilogy examines the history and development of these important magazines and the fiction that they championed By the end of this period 1964 Carnell had set the stage for that major development in UK science fiction the new wave adventures of the transformed NEW WORLDS under the editorship of Moorcock and had himself shifted gear into the next mode of SF publishing as editor of the paperback anthology series New Writings in SF Boston and Broderick s series will become the definitive critical histories of these important British magazines Complete with indices of names and titles cited
