Experiment, Theory, Practice P.L. Kapitza,2012-12-06 In this splendid collection of the articles and addresses of P L Kapitza the author remarks on the insight of the 18th century Ukrainian philosopher Skovoroda who wrote We must be grateful to God that He created the world in such a way that everytbing simple is true and everything compli cated is untrue At another place Kapitza meditates on the roles played by instinct imagination audacity experiment and hard work in the develop ment of science and for a moment seems to despair at understanding the dogged arguments of great scientists Einstein loved to refer to God when there was no more sensible argument With Academician Kapitza there are reasoned arguments plausible alter natives humor and humane discipline energy and patience a skill for the practical and transcendent clarity about what is at issue in theoretical practice as in engineering necessities Kapitza has been physicist engineer research manager teacher humanist and this book demonstrates that he is a wise interpreter of historical philosophical and

social realities He is also in C P Snow s words strong brave and good Variety of Men N Y 1966 p 19 In this preface we shall point to themes from Kapitza s interpretations of science and life On scientific work Good work is never done with someone else s hands The separation of theory from experience from experimental work and from practice above all harms theory itself

Weather Projects for Young Scientists Mary Kay Carson,2007 Explores weather in detail from the wind to the clouds with more than 40 projects you may use for science projects

Your Young Scientist Thomas Drake,2015-03-17 Kids love magic With science experiments you can create magic right in the comfort of your home and leave your child in awe The best part about science experiments is that your child will learn something while having fun While they may be thinking that flowers changing colors is magic this is a great opportunity for you to explain to your child how plants transport nutrients through their stems Even if you and your child are not experts you can do fun experiments together with amazing results

The Book of Potentially Catastrophic Science Sean Connolly,2010-05-05 It s never been more important to engage a child s scientific curiosity and Sean Connolly knows just how to do it with lively hands on seemingly dangerous experiments that pop ooze crash and teach Now the author of The Book of Totally Irresponsible Science takes it one step further He leads kids through the history of science and then creates amazing yet simple experiments that demonstrate key scientific principles Tame fire just like a Neanderthal with the Fahrenheit 451 experiment Round up all your friends and track the spread of disease using body glitter with an experiment inspired by Edward Jenner the vaccination pioneer who s credited with saving more lives than any other person in history Rediscover the wheel and axle with the ancient Sumerians and perform an astounding experiment demonstrating the theory of angular momentum Build a simple telescope just like Galileo s and find the four moons he discovered orbiting Jupiter an act that helped land him in prison Take a less potentially catastrophic approach to electricity than Ben Franklin did with the Lightning Mouth experiment Re create the Hadron Collider in a microwave with marshmallows calculator and a ruler it won t jeopardize Earth with a simulated Big Bang but will demonstrate the speed of light And it s tasty By letting kids stand on the shoulders of Aristotle Newton Einstein the Wright brothers Marie Curie Darwin Watson and Crick and more The Book of Potentially Catastrophic Science is an uncommonly engaging guide to science and the great stories of the men and women behind the science
