## **Tadao Ando:**

**Tadao Ando** Tadao Andō, Francesco Dal Co, 1995 Tadao Ando b 1941 is Japan's leading architect and designer with a dazzling international reputation. He recently won the 1995 Pritzker Architecture Prize for consistent and significant contributions to the built environment. A comprehensive monograph of Ando's work, this book examines over one hundred buildings and projects designed between 1969-94, illustrated by photographs, plans, and exquisite sketches. Tadao Ando

Tadao Andō, Massimo Vignelli, 2003 This new monograph focuses on the effect of natural elements, particularly light and water, on architecture, one of Ando's ongoing preoccupations.

**Tadao Ando** Tadao Ando, 2012-09-19 The newest volume in our popular Conversations series features Japanese architect Tadao Ando. One of the most celebrated living architects, Ando is best known for crafting serenely austere structures that fuse Japanese building traditions with Western modernism. His minimalist masterworks, geometric forms clad in silky smooth, exposed concrete, are suffused with natural light and set in perfect harmony with the landscape. In these highlights from lectures delivered at the University of Tokyo's Graduate School of Architecture, Ando candidly describes his experiences as a largely self-taught practitioner, tracing his development from an early interest in the traditional building craft of his native Japan through his political awakening in the turbulent 1960s to his current stature as one of the world's foremost architects. In addition to exploring his aesthetic influences and working process, Ando offers students a road map not only for maintaining professional integrity but also for becoming effective agents of change in the world.

**Tadao Ando** Tadao Andō, 2009 A survey of the extensive series of museums designed and built by Tadao Ando in Japan, Europe, and the USA. Ever since Tadao Ando started to establish himself more than thirty years ago as one of the best designers on the international scene for the rigour and character of his works, his intense activity has moved tirelessly between private residences and public buildings. Each of these works has added a small piece to the construction of a cohesive path based on a strong and clear use of geometry, the employment of few materials in the right proportions, the harmony of the spaces, and a strong sense of the relationship with the landscape. From this point of view, the series of museums designed by Tadao Ando tells of the Japanese master's design philosophy perfectly.
