The Of During

Margarita Diaz-Andreu, Simon Keay

The Of During:

During the Reign of the Queen of Persia Joan Chase, 2014-04-15 Set on a small Ohio farm this moving unusual and accomplished multigenerational family saga is a Norman Rockwell painting gone bad as it explores grief motherhood and coming of age in Middle America Margaret Atwood Joan Chase's subtle story of three generations of women negotiating lifetimes of joy and ruin deserves its place alongside such achievements as Marilynne Robinson's *Housekeeping* and Alice Munro's *Lives of Girls and Women* The Queen of Persia is not an exotic figure but a fierce Ohio farmwife who presides over a household of daughters and granddaughters The novel tells their stories through the eyes of the youngest members of the family four cousins who spend summers on the farm for them both a life giving Eden and the source of terrible discoveries about desire and loss The girls bicker and scrap they whisper secrets at bedtime and above all they observe the kinds of women their mothers are and wonder what kind of women they will become But always present is the family's great trauma the decline and eventual death from cancer of Gram's daughter Grace A powerful story about family ties and tensions During the Reign of the Queen of Persia is also a book about place charting the transformation of the old hardscrabble Midwest into the commercial wilderness of modern America

The Archaeology of Iberia Margarita Diaz-Andreu, Simon Keay, 2013-12-02 For many archaeologists Iberia is the last great unknown region in Europe Although it occupies a crucial position between South Western Europe and North Africa academic attention has traditionally been focused on areas like Greece or Italy However Iberia has an equally rich cultural heritage and archaeological tradition This ground breaking volume presents a sample of the ways in which archaeologists have applied theoretical frameworks to the interpretation of archaeological evidence offering new insights into the archaeology of both Iberia and Europe from prehistoric time through to the tenth century The contributors to this book are leading archaeologists drawn from both countries They offer innovative and challenging models for the Paleolithic Neolithic Copper Age Bronze Age Iron Age Roman Early Medieval and Islamic periods A diverse range of subjects are covered including urban transformation the Iron Age peoples of Spain observations on historiography and the origins of the Arab domains of Al Andalus It is essential reading for advanced undergraduates and those researching the archaeology of the Iberian Peninsula
