A Game of Their Own Jennifer Ring,2015-04 In 2010 twenty American women were selected to represent Team USA in the fourth Women s Baseball World Cup in Caracas Venezuela most Americans however had no idea such a team even existed A Game of Their Own chronicles the largely invisible history of women in baseball and offers an account of the 2010 Women s World Cup tournament Jennifer Ring includes oral histories of eleven members of the U S Women s National Team from the moment each player picked up a bat and ball as a young girl to her selection for Team USA Each story is unique but they share common themes that will resonate with young female players and fans alike facing skepticism and taunts from players and parents when taking the batter s box or the pitcher s mound self doubt the unceasing pressure to switch to softball and eventual acceptance by their baseball teammates as they prove themselves as ballplayers These racially culturally and economically diverse players from across the country have ignored the message that their love of the national pastime is wrong Their stories come alive as they recount their battles and most memorable moments playing baseball the joys of exceeding expectations and the pleasure of honing baseball skills and talent despite the lack of support With exclusive interviews with players coaches and administrators A Game of Their Own celebrates the U S Women s National Team and the excellence of its remarkable players In response to the jeer No girls allowed these are powerful stories of optimism feistiness and staying true to oneself **Senate Journal** Wisconsin. Our Town Steve Reeder,2025-08-04 Penned by a historian who lived most of his life in and around the town he loves Our Town is a thorough page number page historical record of Monrovia Indiana Following the first History of Monrovia penned by Lena Henley in 1934 for the town s centennial and local historian Virginia Jett s Monrovia Sesquicentennial History Book compiled in 1984 historian Steve Reeder s Our Town is Monrovia s bicentennial record Compiled by Reeder through research and the Local History Project he organized beginning in 2015 to bolster the community and to preserve and recognize its history this book is largely a record for the community by the community From the earliest documentation of its settlers in 1608 to its founding in 1834 and transformation in the two hundred years since this record breaks down the community as a whole the service of hundreds of veterans biographical accounts of local legends like Branch McCracken and much more For ease of navigation readers may refer to the nine appendices of compiled data the thorough index and over 600 footnote citations making this book a proven resource for community members historians and genealogists alike The only constant theme in history is change In this book walk through the town of Monrovia and see how it changed and grew during more than 200 years of community service and achievement proving this little town has had a big impact on history The Making of a Physician Harry L. Graber M.D. F.A.C.C.,2016-06-29 Both genetic and environmental factors play important

roles in one's life Genetics remains a fixed entity whereas environment is a variable Environmental experiences in life can have a positive or negative influence upon the genetic makeup of a given individual Decision making in the preschool environment is predominantly controlled by parents Eventually the individual being influenced by the many past environmental factors becomes the responsible choice maker as to which path in life he/she wishes to travel It is my belief that it is providential that one is given these experiences to aid in our decision making This concept was supported by five of the physicians who shared their stories chapter 10 All were greatly influenced by role models whom they encountered in their earlier life This influence factor is not a single event but a continuum This forms the basis of the concept that the making of a physician is not a one-time event but represents a continuum For some of us becoming a physician was understood as a calling The stories in this book were shared so that others may develop a greater appreciation of their own environmental experiences and consider them as influential factors in the decision making of their lives It is also my hope that this book might be of positive help to the young person considering the medical profession as his or her vocation
