**How To Start A Coworking Space A Complete Guide - 2020 Edition** Gerardus Blokdyk, **Open Data for Resilience Initiative Field Guide** John Crowley; Dustin York; Robert Soden; Vivien Deparday, In 2011 the Global Facility for Disaster Reduction and Recovery created the Open Data for Resilience Initiative OpenDRI to help people in vulnerable regions better understand the historical and changing risks they face from natural hazards OpenDRI is a partnership of governments and international institutions that are building a deeper collective understanding of risk by sharing information about their hazards exposure vulnerability and risks OpenDRI offers governments and their partners a process for cataloguing their existing data engaging at risk communities in mapping and curating data about their built environment building partnerships around data This field guide provides planners and program officers with a map of how to implement the collective effort that is OpenDRI It is aimed at a person who needs to write a strategic vision craft a budget hire personnel and evaluate the impact of open data

**How To Start A Coworking Space Business A Complete Guide - 2020 Edition** Gerardus Blokdyk, *Community Empowerment, Sustainable Cities, and Transformative Economies* Taha Chaiechi, Jacob Wood, 2022-01-12 This edited volume presents the conference papers from the 1st International Conference on Business Economics Management and Sustainability BEMAS organized by the Centre for International Trade and Business in Asia CITBA at James Cook University This book argues that the orthodox methods of external risks climate change adaptation plans and sustainable economic growth in cities are no longer adequate These methods so far have not only ignored the ongoing structural changes associated with economic

development but also failed to account for evolving industries composition and the emergence of new comparative advantages and skills Specifically this book looks at the vulnerable communities and exposed areas particularly in urban areas that tend to experience higher susceptibility to external risks such as climate change natural disasters and public health emergencies have been largely ignored in incremental adaptation plans Vulnerable communities and areas not only require different adaptive responses to climate risk but also possess unlocked adaptive capacity that can motivate different patterns of sustainable development to achieve the goals of the 2030 Agenda It is essential therefore to view transformative growth and fundamental reorientation of economic resources as integral parts of the solution Social disorganisation and vulnerability are other undesired outcomes of the unpredictable and widespread external economic shocks This is due to a sudden and tough competition between members of society to acquire precious resources most of which may be depleted during unprecedented events such as natural disasters or pandemics resulting in an even more chaotic and disorganised conditions
