Tel Aviv Forever:

The People of Forever Are Not Afraid Shani Boianjiu, 2012-09-11 Shani Boianjiu's stunning debut gives us a world where girls in the Israeli Defense Forces wait endlessly for womanhood orders war peace Yael trains marksmen and flirts with boys Avishag stands guard watching refugees throw themselves at barbed wire fences Lea posted at a checkpoint imagines stories behind the familiar faces that pass by her day after day They gossip about boys and whisper of an ever more violent world just beyond view They drill constantly for a moment that may never come They live inside that single intense second just before danger erupts And they find that their dreams have stranger repercussions than they have been trained to imagine

Death Is Forever Elizabeth Lowell, 2009-10-13 Somewhere in the Australian outback on land left to her by a late relative she never met American photographer Erin Windsor believes a diamond mine might be waiting with the promised yield of millions of dollars in raw gems But the old man took its location with him to the grave Erin's not the only one in the hunt though she's easily the least ruthless and most vulnerable Blood will stain the trail to a precious well hidden secret and she must turn to Cole Blackburn for help or face the killing night alone A geologist and a walking mystery with ties to powerful forces that are now Erin's enemies Cole is a dangerous man to trust but she has no choice Because life is too short to throw away your dreams no matter how treacherous the pursuit of them might be And death is forever More Everything

Forever Adam Becker, 2025-04-22 This wild and utterly engaging narrative Melanie Mitchell shows why Silicon Valley's heartless baseless and foolish obsessions with escaping death building AI tyrants and creating limitless growth are about oligarchic power not preparing for the future Tech billionaires have decided that they should determine our futures for us According to Elon Musk Jeff Bezos Sam Altman and more the only good future for humanity is one powered by technology trillions of humans living in space functionally immortal served by superintelligent AIs In More Everything Forever science journalist Adam Becker investigates these wildly implausible and often profoundly immoral visions of tomorrow and shows why in reality there is no good evidence that they will or should come to pass Nevertheless these obsessions fuel fears that overwhelm reason for example that a rogue AI will exterminate humanity at the expense of essential work on solving crucial problems like climate change What's more these futuristic visions cloak a hunger for power under dreams of space colonies and digital immortality The giants of Silicon Valley claim that their ideas are based on science but the reality is darker they come from a jumbled mix of shallow futurism and racist pseudoscience More Everything Forever exposes the powerful and sinister ideas that dominate Silicon Valley challenging us to see how foolish and dangerous these visions of the future are
