The Inner Word

John Forsyth Little

The Inner Word:

The Inner Word in Gadamer's Hermeneutics John Arthos, 2009 Late in his life Hans Georg Gadamer was asked to explain what the universal aspect of hermeneutics consisted in and he replied enigmatically in the *verbum interius* Gadamer devoted a pivotal section of his magnum opus *Truth and Method* to this Augustinian concept and subsequently pointed to it as a kind of passkey to his thought It remains however both in its origins and its interpretations a mysterious concept From out of its layered history it remains a provocation to thought expressing something about the relation of language and understanding that has yet to be fully worked out The scholastic idea of a word that is fully formed in the mind but not articulated served Augustine as an analogy for the procession of the Trinity and served Thomas Aquinas as an analogy for the procession between divine ideas and human thought Gadamer turned the analogy on its head by using the *verbum interius* to explain the obscure relation between language and human understanding His learned interpretation of the idea of the inner word through Neoplatonism Lutheranism idealism and historicism may seem nearly as complex as the medieval source texts he consulted and construed in his exegesis but the profundity of his insights are unquestioned In unpacking Gadamer's interpretive feat John Arthos provides an overview of the philosophy of the logos out of which the *verbum interius* emerged He summarizes the development of the *verbum* in ancient and medieval doctrine traces its path through German thought and explains its relevance to modern hermeneutic theory His work unfolds in two parts as an expansive intellectual history and as a close analysis and commentary on source texts on the inner word from Augustine to Gadamer As such this book serves as an indispensable guide and reference for hermeneutics and the intellectual traditions out of which it arose as well as an original theoretical statement in its own right Consummately researched lucidly written and persuasively argued throughout *The Inner Word* succeeds brilliantly in bringing to light this neglected but pivotal matter in Gadamer's work Arthos is learned in the best humanist way for he succeeds in creating something new of his own that will speak eloquently to all of us Walter Jost University of Virginia Gadamer suggests that the Christian idea of incarnation is a key to his hermeneutics but does not explain his position in a detailed or systematic manner Arthos brings his considerable knowledge of hermeneutics and rhetoric to bear on Gadamer's insight recounting the rich intellectual history to which Gadamer gestures and providing an extended and detailed exegesis of this pivotal point in the third part of *Truth and Method* Gadamer's account of linguisticity Arthos explains can best be understood through his use of a complex metaphor the inner word Arthos matches his erudition with clear and clean prose and his account exemplifies rather than just describes Gadamer's hermeneutical philosophy Any scholar interested in Gadamer's philosophy should have this book on his or her shelf Francis J Mootz III William S Boyd Professor of Law William S Boyd School of Law Arthos's strength lies for me in his careful reading of the sources He effectively commands the literature on the subject This work shows in a sophisticated way the legacy of trinitarian theology for philosophical hermeneutics The very complex task of illuminating the phenomenon of the *verbum interius* and indicating

its centrality for philosophical hermeneutics is accomplished by John Arthos with great sensitivity to the subject matter Andrzej Wiercinski The International Institute for Hermeneutics *The Incarnation of the Word* Edward Morgan, 2010-04-01 An exploration of three of Augustine's central texts the De Trinitate the De Doctrina Christiana and the Confessions elucidate the principles of Augustine's theology of language This is done in a systematic manner which previous scholarship on Augustine has lacked Augustine's principles are revealed through a close reading of these three core texts Beginning with the De Trinitate the book demonstrates that Augustine's inquiry into the character of the human person is incomplete For Augustine there is a void without reference to the category of human speech the very thing that enables him to communicate his theological inquiry into God and the human person in the De Trinitate From here the book examines a central work of Augustine that deals with the significance of divine and human speech the De Doctrina Christiana It expounds this text carefully showing three chief facets of Augustinian thought about divine and human communication human social relations human self interpretation using scripture and preaching the public communication of God's word It accepts the De Doctrina Christiana as laying theoretical foundations for Augustine's understanding of the task of theology and language's meaning and centrality within it The book then moves to Augustine's Confessions to see the principles of Augustine's theology of language enacted within its first nine books Augustine's conversion narrative is analysed as a literary demonstration of Augustine's description of human identity before God showing how speech and human social relations centrally mediate God's relationship to humanity For Augustine human identity properly speaking is confessional The book returns to the De Trinitate to complete its analysis of that text using the principles of the theology of language uncovered in the De Doctrina Christiana and the Confessions It shows that the first seven books of that text and its core structure move around the principles of the theology of language that the investigation has uncovered To this extent theological inquiry for Augustine the human task of looking for God is bound up primarily within the act of human speech and the social relations it helps to compose The book closes with reflection on the significance of these findings for Augustinian scholarship and theological research more generally The Ministry of God's Word Watchman Nee, 1994-09-01 The most important work of God on earth is the speaking out of His word through man In the Old Testament God's word was released through the ministry of the prophets and in the New Testament it was released through the ministry of the Lord Jesus and later through the apostles Even though God is pleased to allow us to speak His word the greatest measure of our usefulness as a minister of the Word is not the amount of our Bible knowledge or even the ability to eloquently present the truth rather it is the degree to which our inward parts have been molded and shaped by the Holy Spirit The Ministry of God's Word contains a series of messages given by Watchman Nee in 1948 and 1949 after nearly thirty years of ministry These messages are deep profound subjective and full of light revealing both the depth of his experience and extent of our need to open to the Holy Spirit's inward operation The Word, 1910 **Hermeneutics and the Voice of the Other** James Risser, 1997-01-01 Elucidates the

major components of Gadamer's philosophical hermeneutics found in his later work *Writings in the Philosophy of Religion / Religionsphilosophische Schriften* John P. Clayton, 2020-03-23 No detailed description available for *Writings in the Philosophy of Religion Religionsphilosophische Schriften* **Renewing the Balance** Dirk Dunbar, 2017-03-31 In *Renewing the Balance* Dirk Dunbar shows how the balance worshipped in ancient Earth wisdom traditions is being integrated into Western culture's dominantly masculine rational value system Filled with hope revelations regarding cultural evolution and scholarship of the highest order Dunbar's book passionately challenges all of us to recover the archaic reverence for the natural world to reconsider the limits of growth progress and mechanistic thinking and to join in the newly reclaimed celebration of life that fosters peace and the potential for a sustainable future Dirk Dunbar's *Renewing the Balance* is a crucial and comprehensive account of how traditional cultures maintained a healthy balance that preserved our natural world and how our modern technocratic economic ideology has produced a culture that is dangerously out of balance It is at once a diagnosis of our dis-ease and a prescription for healing our collective psyche polis and environment A truly fascinating philosophical adventure Sam Keen Author of 12 books including *The Passionate Life* and *Hymns to an Unknown God* *Renewing the Balance* brings depth and breadth to our efforts to understand how Western culture evolved as it did and to appreciate the many streams that now flow into our efforts to manifest ecological wisdom in a hypermodern world Charlene Spretnak Author of 9 books including *States of Grace* and *The Resurgence of the Real* [History of the Development of the Doctrine of the Person of Christ](#) Isaak August Dorner, 1890 *The Hibbert Lectures*, 1885 *The Inner Life* Charles Webster Leadbeater, 1911 Hardcover Imitation leather Color Dust Jacket Printed on Acid Free paper [A Cultural History of the Modern Age: Introduction. book 1.
