Watson Carleton Stevens Coon,1971      **The Hunting People** Carleton Stevens Coon,1972      **The Peoples of Northeast Asia through Time** Richard Zgusta,2015-06-29 The focus of Richard Zgusta s *The Peoples of Northeast Asia through Time* is the formation of indigenous and cultural groups of coastal northeast Asia including the Ainu the Paleoasiatic peoples and the Asiatic Eskimo Most chapters begin with a summary of each culture at the beginning of the colonial era which is followed by an interdisciplinary reconstruction of prehistoric cultures that have direct ancestor descendant relationships with the modern ones An additional chapter presents a comparative discussion of the ethnographic data including subsistence patterns material culture social organization and religious beliefs from a diachronic viewpoint Each chapter includes maps and extensive references      *The Dakota Peoples* Jessica Dawn Palmer,2010-03-22 The Dakota people alternatively referred to as Sioux Native Americans or Oceti Sakowin The People of the Seven Council Fires have a storied history that extends to a time well before the arrival of European settlers This work offers a comprehensive history of the Dakota people and is largely based on eyewitness accounts from the Dakota themselves including legends traditions and winter counts Included are detailed analyses of the various divisions tribes and bands of the Dakota people including the Lakota and Nakota tribes Topics explored include the Dakotas early government the role of women within the Dakota tribes the rituals and rites of the Dakota people and the influence of the white man in destroying Dakotan culture      [The Culture of Hunting in Canada](#) Jean L. Manore,Dale Miner,2011-11-01 *The Culture of Hunting in Canada* is about a pivotal but little studied aspect of Canadian history culture and society It covers elements of the history of hunting from the pre colonial period until the present in all parts of Canada featuring essays by practitioners and scholars of hunting and by pro and anti hunting lobbyists The result crosses the boundaries between scholarship and personal reflection and between academia and advocacy The essays collected here address important historical and contemporary issues regarding the culture and practice of hunting Topics include hunting identities conservation and its relationship to hunting tensions between hunters and non hunters and between Aboriginal and non Aboriginal hunting groups hunting ethics debates over hunting practices and regulations animal rights and gun control The discussion involves consideration of the social political and economic context as well as class and racial tensions between sport hunters and subsistence hunters *The Culture of Hunting in Canada* makes an unprecedented contribution to the study of hunting in Canada and its role in our culture It will appeal to sociologists anthropologists and historians of hunting culture wildlife biologists natural resource managers and environmentalists and not least hunters and anyone interested in the culture of hunting      *A History of the Original Peoples of Northern Canada* Keith J. Crowe,1991 For more than fifteen years Keith Crowe s *A History of the Original Peoples of Northern Canada* has informed a multitude of

residents in and visitors to the Canadian North and has served as a standard text. Now in a new epilogue Crowe describes and analyses the changes in the North which have come about since the book's first publication. The success of this book over the years is due in large part to Crowe's approach. While the majority of works on Canadian history are essentially European in perspective, Crowe has endeavoured to interpret the history of the original peoples of northern Canada from a native standpoint. He has attempted to provide a work that native Canadians can use to learn the broad outlines of their cultural and historical development as well as details about their people, places and events, while giving non-native people a more accurate version of northern Canadian history and ethnology. Crowe begins with the emergence in prehistoric times of the three great groups of hunting people: the Algonkian, Athapaskan and Inuit, describing their contribution to the cultural heritage of native peoples today. He devotes particular attention to the various native tribes and some of their outstanding leaders: to the fur trade, its effects and the emergence of the Métis people; to the devastating consequences of trading and whaling for the Arctic and the Inuit who lived there; to the Yukon Indians and the Gold Rush; to the coming of Christianity and to the impact of governmental and economic encroachment on the North and the native peoples' response to this moving into the boardroom and elected office. In his new epilogue Crowe surveys the major land claims since 1974, some settled, most still under negotiation, and some like the James Bay hydro electric project being challenged. Crowe also explains the complexities of the land claims process and points out the irony inherent in native peoples having to help create numerous foreign laws and institutions in order to protect an essentially simple way of life. He describes the native peoples' movement into and up the ranks of government at all levels and emphasizes the important role played by regional and national native associations such as the Assembly of First Nations. He outlines the changes and developments in education in the North and provides a detailed assessment of the still very difficult economic situation, stressing the native peoples' concern that economic development in the North not be divorced from environmental considerations. Keith J. Crowe, who served for many years in the Department of Indian and Northern Affairs, is now retired but remains privately active in northern and native issues.

**Returning to the Lakota Way** Joseph M. Marshall, III, 2014-11-03 In *Returning to the Lakota Way*, prolific author Joseph Marshall presents the follow-up to his highly regarded book *The Lakota Way*. Using beautiful storytelling to relay traditional tales passed down through the generations, Marshall once again takes the reader on a journey of growth and inspiration. Each chapter presents one story that exemplifies a quality or way of life that will encourage in readers a sense of inner peace amidst the busyness of modern life. From the hunting adventures of the raven and the wolf we see the importance of tolerance; the lessons of the grasshopper impart the wisdom of patience; and the experiences of a young man named Walks Alone teach us about silence and turning within. Speaking to these and other universal qualities such as faith and selflessness, Marshall gives readers insight into their own lives using tales from the past interspersed with stories from his own life growing up on the Rosebud Sioux Indian Reservation in South Dakota. In him we see a clear example of the wisdom of history enhancing the state of the

current world This magnificent work will give readers an insider's view of the Lakota people while providing universal lessons to enrich life
