Teitge,2007-02-01 Since the 1940s there has been an explosion of writings both scientific and nonscientific about the question of identity and what it means to be an individual in today s world This book examines sociological perspectives on identity in order to illuminate the perennial problem of defining the human person and to pose an alternative definition of identity based on it being socially constructed Beginning with a review of previous studies of identity the authors present a set of propositions for organizing the wide range of uses of the term and for arriving at an adequate definition of it Identity is then analysed in two contexts gender identity linked to present bodies and prenatal and postmortem identities linked to future and past bodies Whereas gender identity reveals the powerful but breakable link between body type and identity prenatal and postmortem identities illustrate the symbolic reality and partial independence of identity from any corporeal existence This is an innovative and insightful study which will appeal to all those concerned with understanding the nature of human identity **Identity in Modern Society** Bernd Simon,2008-04-15 This book is a social psychological inquiry into identity in modern society Starts from the social psychological premise that identity results from interaction in the social world Reviews and integrates the most influential strands of contemporary social psychology research on identity Brings together North American and European perspectives on social psychology Incorporates insights from philosophy cognitive neuroscience psychology cultural studies anthropology and sociology Places social identity research in a variety of real life social contexts **Greek Philosophy: Decoding the Identity of Human Society** Antonios Peripatitis,2025-07-29 This work is a profound lyrical tapestry a chronicle of the spirit tracing humanity s journey from the past into the future It delves into the unseen chains of power and the intricate web of the economic system revealing the primordial dance of capital interest and corruption that holds the souls of our time captive From the first stirrings of human consciousness to the age of Artificial Intelligence it dissects the very mechanisms of control The work explores the audacious role of the invisible mind of AI employed by rulers in their eternal dream to conquer space a quest that mirrors humanity s deepest desires and fears It is a quest for freedom a study of discernment and a search for virtue amidst the chaos of existence **The Power of Identity** Manuel Castells,2003-10-17 The Power of Identity is the second volume of Manuel Castells trilogy The Information Age Economy Society and Culture It deals with the social political and cultural dynamics associated with the technological transformation of our societies and with the globalization of the economy A brilliant account of social cultural and political
