The New Papyrological Primer is a fully revised and expanded edition of David and Groningen's 1964 standard introduction to Greek papyrological texts. The current edition contains 81 Greek texts arranged in a chronological order which illustrate various aspects of life in Hellenistic Roman and Byzantine Egypt. Each text is provided with a short commentary and explanatory notes which aim to allow students to understand the text and to place it accurately in its social context. A lengthy introduction provides general background information, data about the texts examined and discussion of a number of commonly neglected topics. A glossary of Greek terms is appended. The work contains numerous plates, illustrations and maps.

On May 1st 1998 Professor P W Pestman retired from academic teaching. His contributions to the field of papyrology are well known; he has continually stressed the importance of Egyptian sources for the study of Greek and Roman Egypt and the importance of studying the Greek and Egyptian documentation together in context. Indeed he has been among the first to link the formerly separate Greek and Egyptian documentation, establishing modern papyrological practice. He has thus given an Egyptian face to Graeco-Roman society to complement the Greek face that had previously dominated papyrology. The present volume contains twelve contributions by members and alumni of the Papyrologisch Instituut that illustrate the two faces of Graeco-Roman Egypt and show how they may be tied together.      Jewish Perspectives on Hellenistic Rulers Tessa
