world to their Soviet and American readers these journalists projected their own ideologies onto their reporting In an age of mutual acrimony and closed borders journalists were among the few individuals who crossed the Iron Curtain Their reporting strongly influenced the ways that policy makers pundits and ordinary people came to understand the American or the Soviet other In *Cold War Correspondents* Dina Fainberg examines how Soviet and American journalists covered the rival superpower and how two distinctive sets of truth systems professional practices and political cultures shaped international reporting Fainberg explores private and public interactions among multiple groups that shaped coverage of the Cold War adversary including journalists and their sources editors news media executives government officials diplomats American pundits Soviet censors and audiences on both sides Foreign correspondents Fainberg argues were keen analytical observers who aspired to understand their host country and probe its depths At the same time they were fundamentally shaped by their cultural and institutional backgrounds to the point that their views of the rival superpower were refracted through values of their own culture International reporting grounded and personalized the differences between the two nations describing the other side in readily recognizable self referential terms Fundamentally Fainberg demonstrates Americans and Soviets during the Cold War came to understand themselves through the creation of images of each other Drawing on interviews with veteran journalists and Soviet dissidents *Cold War Correspondents* also uses previously unexamined Soviet and US government records newspaper and news agency archives rare Soviet cartoons and individual correspondents personal papers letters diaries books and articles Striking black and white photos depict foreign correspondents in action Taken together these sources illuminate a rich history of private and professional lives at the heart of the superpower conflict

*Russia* Alfred Rambaud,1900      *From Nyet to Da* Yale Richmond,1996 This work lays the groundwork for understanding the new Russia of the late 20th century As investors revive their interest in Russia and contacts develop there is increased need for understanding of what drives Russian behaviour and the skills needed to cope with it This book aims to answer this need It is written both for those who deal with Russia and its people whether inside or outside Russia whether business executives professional educators or students and for those who are simply seeking a way to make better sense of what the media tell us daily about Russian current affairs      **The History of Russia from the Earliest Times to 1877** Alfred Rambaud,1904      *The New Russians* Howard Sochurek,John De Visser,1973-01-01 Describes the life of young people from kindergarten to university age in Siberia including their schools entertainment youth groups and hobbies      **The empire of the tsars and the Russians, tr. with annotations by Z.A. Ragozin** Henri Jean B. Anatole Leroy-Beaulieu,1894      [A History of Russia](#) Alfred Rambaud,1879      [Tiny Revolutions in Russia](#) Bruce Adams,2005-01-10 This book presents a large collection of anecdotes and jokes from different periods of the 20th century Anecdotes and jokes were a hidden form of discursive communication in the Soviet era lampooning official practices and acting as a confidential form of self affirmation They were not necessarily anti Soviet by their very nature both criticising existing reality and acting as a form of

acquiescence Above all they provide invaluable insights into everyday life and the attitudes and concerns of ordinary people The book also includes anecdotes and jokes from the post Soviet period when ordinary people in Russia continued to have to cope with rather grim reality and the compiler provides extensive introductory and explanatory matter to set the material in context

**The Empire of the Tsars and the Russians** Anatole Leroy-Beaulieu,1894 *Russia and the Russians* Edmund Noble,1900 Russia in the popular view of it is regarded as a far away country of but remote interest for all save a few of the western nations with whom it maintains more or less close political relations We ourselves are apt to think of it when we give it a thought in terms of one or other of those conventional judgments which the world at large passes upon communities that from time to time compel its attention but which it never thoroughly understands Nor does travel always enlighten us as to the value for our culture processes of a knowledge of this long isolated empire in the European northeast Extend our journey through Russia as we will we seem ever to find ourselves in few and poorly developed urban communities with their increasing proletariat where poverty intemperance and sanitary neglect go hand in hand and where the distance between the impecunious classes and the rich seems to grow greater year by year in an empire of peasants where the land yields but a sorry subsistence to the people who cultivate it people in whose minds superstition has more or less usurped the place left vacant by education and amid a general population of over a hundred million souls who continue to be held by a church supported autocracy in a condition of political serfdom p 1 2
