meet with disaster After that the narrator sets off alone into the darkness to find the girl he has made contact with knowing now that she is the reincarnation of his past love At the conclusion of the adventure the narrative does not return to the framework story instead ending with the homecoming of the couple and his inauguration into the ranks of their most honoured he

Hodgson,2021-07 William Hope Hodgson was like his contemporaries Algernon Blackwood and Arthur Machen one of the most important prolific and influential fantasists of the early twentieth century His dark and unsettling short stories and novels were shaped in large part by personal experience a professional merchant mariner for much of his life many of Hodgson s tales are set at sea and his work evokes a disturbing sense of the amorphous and horrific unknown While his nautical adventure fiction was very popular during his lifetime the supernatural and cosmic horror he is most remembered for only became well known after his death mainly due to the efforts of writers like H P Lovecraft and Clark Ashton Smith who often praised his work and cited it as an influence on their own By the latter half of the twentieth century it was only his weird fiction that remained in print and his vast catalog of non supernatural stories was extremely hard to find Night Shade Books s five volume series presents all of Hodgson s unique and timeless fiction Each volume contains one of Hodgson s novels along with a selection of thematically linked short fiction including a number of works reprinted for the first time since their original publication The fourth book of the five volume set The Night Land and Other Romances collects all of his romances and women s fiction as well as the entirety of his classic 1912 dying earth novel The Night Land

**The Night Land Annotated** William Hodgson,2020-04-21 The Night Land is one of Hodgson s handful of novels and is worth a mention not just because of its haunting imagery but also because its premise is relevant to an overarching theme of the weird fiction of the early 1900 s The story is set in a far distant future one so incredibly distant that the Sun has burned out as have in fact all stars in the sky Humanity still survives in this land of eternal night however because of a mystical source of energy known as the Earth Current The remaining humans have sequestered themselves in a massive pyramid known as The Great Redoubt which is powered and protected by the Earth Current and needs to be because the death of the stars has revealed numerous other beings who thrive in the night land and are hostile to humanity My favorite My spy glass showed it to me with clearness a living hill of watchfulness known to us as The Watcher of The South It brooded there squat and tremendous hunched over the pale radiance of the Glowing Dome And so to tell more about the South Watcher A million years gone as I have told came it out of the blackness of the South and grew steadily nearer through twenty thousand years but so slow that in no one year could a man perceive that it had moved Yet it had movement and had come thus far upon its road to the Redoubt when the Glowing Dome rose out of the ground before it growing slowly And this had stayed the way of the Monster The main narrative of the novel concerns the discovery via telepathy by the hero of the story of a previously unknown second Redoubt far away in the darkness The hero falls in love with the woman he communicates with and ventures out into the perilous dark in search of her when the Earth Current of the second Redoubt begins to fail The tale is a fascinating and beautiful one filled with many eerie images It only begins to drag when the hero finds his love and attempts to lead her back across the lands Hodgson s stunningly sexist view of women as meek submissive animals who must be punished physically when they do wrong is quite icky and his endless descriptions of the couple s love for one another grow tiresome All and all

however it is a unique story which blends science fiction fantasy and horror together A theme I will often return to in my blogging is the observation that horror is very much a product of the social conditions and scientific learnings of its time Hodgson s view of a lightless universe in which humanity awaits its inevitable extinction clearly draws inspiration from the new at the time realization that the Earth and its inhabitants have a much older history than previously thought and the realization that the Sun and its fellow stars have expiration dates upon them These realizations came from the biological insights of Darwin and the radioactive insights of Rutherford among many others I ll have more to say about the history of these discoveries and their influence on the weird fiction of the time in another post [The Night Land](#) The Night Land Author: William Hope Hodgson,2016-08-18 The most popular horror book [The Night Land Annotated Book](#) William Hope Hodgson,2020-03-31 Acquainted With the Night is a book of nonfiction divided up into fourteen chapters an introduction and a conclusion frame the rest of the work which comprises twelve chapters each one focusing upon a single hour during the night In total the twelve chapters span every hour between the times of 6 P M and 5 A M and each hour s chapter has a different theme It s a novel approach to an essay collection and it works quite well the structure is quite pleasing in a manner evocative of a quiet night The introduction called First Night explains the origin of the book before launching into the origin of night both scientifically and etymologically The narrator Dewdney describes his draw toward the night and his motivation for writing this book which is a beautiful tribute to the hours between dusk and dawn that most people regard as simply lost time He then goes on to investigate the origin of the word night tracing it all the way back to the ancient Hittite language of four millennia ago where nekus is the word for night The various accounts of the creation or a priori existence of night are recorded in this section as well This is the last line of the introduction and it sets the scene sublimely for the following twelve chapters Night is a collective planetary spectacle it is a mysterious magical realm and it is a frontier that we are still exploring 16 **SCIENCE FICTION Ultimate Box Set: 170+ Dystopian Novels, Space Adventures, Lost World Classics & Apocalyptic Tales** Jules Verne,Mark Twain,Robert Louis Stevenson,James Fenimore Cooper,Edgar Allan Poe,William Hope Hodgson,George MacDonald,Percy Greg,Jack London,Arthur Conan Doyle,Ernest Bramah,Jonathan Swift,Cleveland Moffett,William Morris,Sinclair Lewis,Anthony Trollope,Richard Jefferies,Samuel Butler,Milo Hastings,David Lindsay,Edward Everett Hale,Edward Bellamy,H.
