BLONDES is ultimately a study of power and powerlessness between the sexes travelling undercover this brunette produced a book which like its subject is wonderfully enlightening Telegraph In art and literature in history and popular culture blonde has never been a mere colour For 2 500 years it has been a blazing signal and around this obsession entire industries have developed influential trends set From Greek prostitutes mimicking the golden haired Aphrodite to the Californian beach babe from pigeon dung and saffron dyes to L Oreal because you re worth it we see the lengths to which women will go to become blonde The power and duality of the blonde as either erotic symbol or saintly virgin waxes and wanes but never disappears Weaving a story rich in anecdote history and high intrigue Joanna Pitman effortlessly combines the wealth of her knowledge with a sharp and clear sighted view of the power of the blonde throughout the ages *A Companion to Jean Renoir* Alastair Phillips, Ginette Vincendeau, 2013-04-11 A Companion to Jean Renoir An extraordinary collection of essays that more than fulfills the aims of its editors Alastair Phillips and Ginette Vincendeau The essays offer exciting original work from younger scholars as well as long established authorities all of which offer invaluable insights into the films writings and life of Jean Renoir Receiving particular attention are questions about the singularity or multiplicity of what the editors call the many Renoirs French American Indian even transnational especially from the early 1930s through the early 1960s Whether mining relatively unexplored archive materials deploying newly current methodological approaches interrogating one of a wide range of topics and issues or engaging in close textual analysis the contributors construct a tantalizing series of innovative road maps for future researchers to pursue Richard Abel University of Michigan Alastair Phillips and Ginette Vincendeau have brought together essays that bring new perspectives to both the best known and the lesser known of Renoir s films Both French cinema specialists and viewers new to Renoir s work will find much of interest in this outstanding collection Judith Mayne Ohio State University Dubbed simply the best director by Fran ois Truffaut Jean Renoir is a towering figure in world film history This exhaustive survey of his work and life features a comprehensive analysis of his films from the multiple critical perspectives of the world s leading Renoir scholars Renoir s career spanned four decades and four countries and included an extraordinary body of films some of which *La Grande illusion* 1937 and *La R g le du jeu* 1939 are universally recognized masterpieces Fathered by the celebrated painter Pierre Auguste Renoir the filmmaker lived through much of the twentieth century beginning his career in the silent era and ending it in full Technicolor His films are notable for their paradoxical combination of strong internal coherence and thematic breadth and diversity and they provide a rich source for

today's scholars of film history and French culture This handbook the largest volume on Renoir ever produced in the English language ranges in scope from extreme close up analysis of individual films to long shot explorations of his aesthetics and the social and cultural contexts in which he worked The most ambitious critical study of Renoir to date this book will appeal to film enthusiasts as much as scholars and specialists **A Maiden Fair to See** F. Anthony Mann Jeanine Basinger, 2007-11-11 Classic study of a filmmaker's career now including every Mann film Back in print new and expanded edition Director of such often revived films as Winchester 73 The Glenn Miller Story and El Cid Anthony Mann enjoyed a lasting and important career as one of Hollywood's premier filmmakers Mann's Westerns noir pictures and epics are admired and studied by fans and scholars alike and he was an expert in the fundamental elements of cinema movement and placement of the camera composition in the frame and careful editing Jeanine Basinger's Anthony Mann which places the director's visual style at the center of its analysis was among the first formal studies of any filmmaker and it set a standard in the field over twenty five years ago Long out of print and much in demand this pioneering book is now available again featuring complete coverage of those Mann films not discussed in the original work as well as over fifty rare film stills Wesleyan is proud to issue this expanded edition of an essential text making it available to new generations of filmgoers and readers The Blondes Who Knew Too Much - The Hitchcock Women During the Monroe Era Uwe Sperlich, 2010-02-16 Seminar paper from the year 2001 in the subject American Studies Culture and Applied Geography grade 2 0 B LMU Munich American Studies Institute course Hauptseminar Women Sexuality and Popular Culture in Twentieth Century America language English abstract Thesis Statement Hitchcock's Blondes were a formation of the director's own creative vision the image of women in film during the Monroe Era did not influence him in his depiction of women Without question Alfred Hitchcock is considered one of the most important and most influential film directors of the Twentieth Century Throughout his career which lasted more than 50 years he directed over 50 feature films many of which are now considered classics Interestingly he directed his most critically acclaimed movies during the relatively short life and career of one distinctive actress Marilyn Monroe It is a striking fact however that Marilyn Monroe never starred in a Hitchcock film although it seems that her blond hair and her star status would have made her the perfect Hitchcock Blonde In this paper I will attempt to compare Hitchcock's female characters during the Monroe Era with the image of women in film and how they differed from each other For this purpose it is necessary to first take a closer look at Marilyn Monroe and the image she embodied as well as women's role in general during that period In addition Hitchcock's background education and attitude towards his leading ladies must also be examined In my analysis I will focus on three films by Hitchcock Vertigo 1958 North By Northwest 1959 and The Birds 1963 I chose these films in particular because they not only show a certain progression in Hitchcock's work in the way he treats and presents his female characters but also because these films were highly successful Granted Hitchcock's rich body of work has been analyzed under various points of view by many scholars I
