*Orientation to the History of Roman Judaea* Steve Mason, 2016-12-09 No field of study is livelier than the history of Roman era Judaea ca 200 BC to AD 400 Bold reinterpretations of texts and new archaeological discoveries prompt us constantly to rethink assumptions What kind of religion was Judaism How did Jews and Christians relate to Roman imperial power Should we speak of Judaism or Judaisms How should the finds at Qumran affect our understanding Did Paul and other early Christians remain within Judaism Should we translate Ioudaioi as Jews or Judaeans These debates can leave students perplexed this book argues because the participants share only a topic They are actually investigating different questions using disparate criteria In the hope of facilitating communication and preparing advanced students this book explores two basic but neglected problems What does it mean to do history if history is what we wish to do And how did the ancients understand and describe their world It is not a history then but an orientation to the history of Roman Judaea Rather than trying to specify which questions are good ones or what one should think about them the book offers new perspectives to help unleash the historical imagination while reckoning squarely with the nature of our evidence

*Hegemonic Peace and Empire* Ali Parchami, 2009-03-04 This book examines the language and the ideology of the Pax Romana the Pax Britannica and the Pax Americana within the broader contexts of hegemony and empire It addresses three main themes a conceptual examination of the way in which hegemony has been justified a linguistic study of how the notion of pax usually translated as peace has been used in ancient and modern times and a study of the international orders created by Rome and Britain Using an historiographical approach the book draws upon texts from Greco Roman antiquity and sources from the nineteenth twentieth and twenty first centuries to show how the pax ideology has served as a justification for hegemonic foreign policy and as an intellectual exercise in power projection From Tacitus condemnation of what he described as creating a wilderness and calling it peace to debates about the establishment of a Pax Americana in post Saddam Hussein s Iraq the book shows not only how the governing elite in each of the three hegemonic orders prescribed to a loose interpretation of the pax ideology but also how their internal disagreements and different conceptualisations of pax have affected the process of empire building This book will be of interest to students of international history empire and International Relations in general
