The Rousing Of The Scottish Working Class:

The Rousing of the Scottish Working Class James D. Young,1979-01-01 **The Irish in the West of Scotland, 1797-1848** Martin Mitchell,2001-01-01 The prevailing historical view of the Catholic Irish in the first half of nineteenth century Scotland is that they were despised by native workers because of their religion and because most were employed as strike breakers or low wage labour As a result of this hostility the Catholic immigrants were viewed as a separate isolated community concerned mainly with Irish and Catholic issues and unable or unwilling to participate in trade unions strikes and radical reform movements The Protestant Irish immigrants on the other hand were believed to have integrated with little difficulty mainly because of religious families and cultural ties with the Scots This study presents a radically different view It demonstrates that whereas some Irish workers were used as a blackleg or cheap labour others participated in trade unions and strikes alongside native workers most notably in spinning weaving and mining industries The various agitations for political change in the region are analysed revealing that the Irish Catholic and Protestant were significantly involved in all of them It is also shown that Scottish reformers welcomed and indeed actively sought Catholic Irish participation The campaigns for Catholic emancipation and the repeal of the Act of Union of 1800 are reviewed as are the attitudes of the Scottish Catholic clergy to the political activities of their overwhelmingly Irish congregations The Origins of Scottish Nationhood Neil Davidson,2000-04-20 The traditional view of the Scottish nation holds that it first arose during the Wars of Independence from England in the thirteenth and fourteenth centuries Although Scotland was absorbed into Britain in 1707 with the Treaty of Union Scottish identity is supposed to have remained alive in the new state through separate institutions of religion the Church of Scotland education and the legal system Neil Davidson argues otherwise The Scottish nation did not exist before 1707 The Scottish national consciousness we know today was not preserved by institutions carried over from the pre Union period but arose after and as a result of the Union for only then were the material obstacles to nationhood most importantly the Highland Lowland divide overcome This Scottish nation was constructed simultaneously with and as part of the British nation and the eighteenth century Scottish bourgeoisie were at the forefront of constructing both The majority of Scots entered the Industrial Revolution with a dual national consciousness but only one nationalism which was British The Scottish nationalism which arose in Scotland during the twentieth century is therefore not a revival of a pre Union nationalism after 300 years but an entirely new formation Davidson provides a revisionist history of the origins of Scottish and British national consciousness that sheds light on many of the contemporary debates about nationalism **Industrial Nation** William Knox,2019-07-31 No detailed description available for Industrial Nation **The Case for Scottish Independence** Ben Jackson,2020-07-09 Scottish nationalism is a powerful movement in contemporary politics yet the goal of Scottish independence emerged surprisingly recently into public debate The origins of Scottish nationalism lie not in the medieval battles for Scottish statehood the Acts of Union the Scottish Enlightenment or any other traditional historical

milestone Instead an influential separatist Scottish nationalism began to take shape only in the 1970s and achieved its present ideological maturity in the course of the 1980s and 1990s The nationalism that emerged from this testing period of Scottish history was unusual in that it demanded independence not to defend a threatened ancestral culture but as the most effective way to promote the agenda of the left This accessible and engaging account of the political thought of Scottish nationalism explores how the arguments for Scottish independence were crafted over some fifty years by intellectuals politicians and activists and why these ideas had such a seismic impact on Scottish and British politics in the 2014 independence referendum
