The secrets, the myths, and the facts behind Washington D.C.'s design and its Masonic significance. In this groundbreaking original work, David Ovason reveals the intimate connections between the mysterious zodiacal symbols and the stellar lore of Washington D.C. and the secret plan for the city. There are over fifty complete zodiacs in Washington D.C. all witness to an extraordinary stellar mystery. Why did generations of architects and artists put their lives and energies on the line when designing this City of the Stars? What was their shared secret language? What or who drove them to create a city overflowing

with such esoteric symbolism What is the meaning behind the secret symbolism of Washington D C s layout And what does it mean for America s future

Masonic Lodge George Mather,Larry A. Nichols,2016-09-06 Many make the mistake of thinking because a thing is common it is probably harmless Masonic Temples are everywhere Are the Masons just another service organization Though their rites are secret Masons assure others that their practices are totally compatible with Christianity But there is an injunction to each Mason to practice his particular religious creed that revelation of the Deity which is recognized by his religion What really goes on behind the Temple door Here is a discerning detailed response Why this series This is an age when countless groups and movements old and new mark the religious landscape in our culture leaving many people confused or uncertain in their search for spiritual truth and meaning Because few people have the time or opportunity to research these movements fully these books provide essential information and insights for their spiritual journeys Each book has five sections A concise introduction to the group An overview of the group s theology in its own words Tips for witnessing effectively to members of the group A bibliography with sources for further study A comparison chart that shows the essential differences between biblical Christianity and the group The writers of these volumes are well qualified to present clear and reliable information and help us discern religious truth from falsehood
